Subject index

A

Academy of Allergy, American: *see* American Academy of Allergy
Adhesives for rotating-arm impactors, performance of (Solomon WR et al), 467 (Brief communication)
Adjuvants, different, influence of, on production of IgD and IgE antibodies, 11 (Abst.)
Adrenergic agents, beta, long-term administration of (Davies HJ); Reply (Jenne JW), 80 (Correspondence)
  receptors, beta, in lymphocyte subpopulations (Bishopric NH et al), 29
Adrenoceptors, lymphocytic, radioligand binding approach in study of, and constitutional basis of atopy (Szentivanyi A), 5 (Editorial)
Aerosol challenge with prostaglandin D_2 and I_2, effect of, on airways of rhesus monkeys (Patterson R et al), 269
Air conditioners, window, exclusion of particulate allergens by (Solomon WR et al), 305
Airways in patients with bronchial asthma, influence of small atmospheric ions on, 30 (Abst.)
  of rhesus monkeys, effect of prostaglandin D_2 and I_2 on (Patterson R et al), 269
  smooth muscle contractions, antagonism of, in vitro; combination bronchodilators, 27 (Abst.)
    mechanical alteration of, in canine asthmatic model, 33 (Abst.)
Albumin, serum, in insect venom, and religious preference (Traynor LA), 81 (Correspondence)
Allergen(s) challenge, production of IgE complexes by, in atopic patients and effect of sodium cromoglycate, 17 (Abst.)
  cricket, hypersensitivity to (Bagenstose AH III et al), 71
  Dermatophagoides pteronyssinus, studies on; measurement of relative potencies of *D. pteronyssinus* purified extracts by in vitro and in vivo methods (Le Mao L et al), 381
  extracts from laboratory animals, immunotherapy with, efficacy and specificity of (Wahn U, Siraganian RP), 413
  human immune response to, genetics of (Marsh DG et al), 322 (Postgraduate course presentation)
  immediate and late cutaneous reaction to, evaluation of pharmacologic inhibition of (Smith JA et al), 118
  -induced asthma, placebo-controlled trial of ketotifen in, and comparison with disodium cromoglycate, 4 (Abst.)
  particulate, exclusion of, by window air conditioners (Solomon WR et al), 305
  pollen, purified, skin reactivity to, in highly ragweed-sensitive individuals (Santilli J Jr et al), 406
Allergenic extracts, immunization with, clinical effects of (Norman PS), 87 (Postgraduate course presentation)
Allergic, anti-, activities of new benzopyranopyridine derivative (Y-12,141) in rats, 28 (Abst.)
  drug (cromolyn) may inhibit histamine secretion by regulating phosphorylation of mast cell protein, 34 (Abst.)
  asthma, subjects with, and nonasthmatic subjects with allergic rhinitis, comparison of responses to pollen extract in (Fish JE et al), 154
  bronchopulmonary aspergillosis and bilateral fungal balls terminating in disseminated aspergillosis (Anderson CJ et al), 140
Allergic—Cont'd
  encephalomyelitis, experimental, potentiation of, in hamsters with persistent encephalitis due to measles virus, 6 (Abst.)
  nasal mucosa and vidian neurectomy, 13 (Abst.)
  and nonallergic rhinitis; their characterization with attention to meaning of nasal eosinophilia (Mullarkey MF et al), 122
  pneumonitis, antazoline-induced, 20 (Abst.)
Allergy(ies), American Academy of: *see* American Academy of Allergy
  to cow's milk, spectrum of, in childhood clinical, gastroenterological, and immunological studies, 32 (Abst.)
  in cystic fibrosis, 13 (Abst.)
  food, migraine and, 24 (Abst.)
    response to treatment with sodium cromoglycate, 19 (Abst.)
  human, specific, IgE and IgG4 antibodies in, 12 (Abst.)
  to Hymenoptera, natural history of, 9 (Abst.)
  and Immunology Self-Assessment Program 1980 (Gottlieb PM), 401 (Correspondence)
  and infection, incidence of, effect of breast feeding on, prospective studies of, 14 (Abst.)
  inhalant, due to crickets (Bagenstose AH III et al), 71
  maternal, and cord blood IgE concentrations, comparison of, for prediction of atopic diseases in infancy (Michel FB et al), 422
  miscellaneous, 3, 9, 12, 19, 24, 31 (Absts.)
  to *Parietera officinalis L.* (Charpin J, Charpin H), 80 (Correspondence)
  penicillin, antigens in; induction of IgE antibody response in mice after treatment with contaminated but not with pure penicillin, 23 (Abst.)
  pollen, respiratory (bronchial pollen asthma and allergic rhinitis), T and B lymphocytes in, 5 (Abst.)
  respiratory, to ragweed; correlation of bronchial responses to allergen with bronchial responses to histamine and circulating IgE (Popa VT), 389
  skin tests, effect of Iodoxamide ethyl on (Frigas E, Reed CE), 257
Alpha fetoprotein, human, suppression of human lymphocyte transformation by, further studies on mechanism of (Yachnin S et al), 127
Alternative pathway of complement, activation of; mechanism in search of diseases (Wilson MR, Salvaggio JE), 319 (Editorial)
    activity of, after splenectomy; comparison to activity in sickle cell disease and hypogammaglobulinemia, 27 (Abst.)
American Academy of Allergy, abstracts given at annual meeting, 163
Aminophylline-sensitive patient, utilization of intravenous dihydroxypropyl theophylline (dyphylline) in, and its pharmacokinetic comparison with theophylline (Lawyer CH et al), 353
Anaphylactic lung tissue, release of slow-reacting substance from, and modification of slow-reacting substance by beta sympathomimetics, 26 (Abst.)
  reactions in skin test–negative patients (Selcow JE et al), 400 (Correspondence)
Anaphylactoid reaction, severe, to radiographic contrast media; recurrence despite premedication with diphenhydramine and prednisone, 32 (Abst.)
Anaphylaxis, fatal, in systemic mastocytosis, 25 (Abst.)
  penicillin, acute laryngeal hemorrhage with laryngeal obstruction initially confused with (Grammer L et al), 465 (Brief communication)

January, pp. 1-82; February, pp. 83-162; March, pp. 163-238; April, pp. 239-318; May, pp. 319-402; June, pp. 403-498.
Abstracts: January, pp. 1-4; February, pp. 5-10; March, pp. 11-16; April, pp. 17-22; May, pp. 23-28; June, pp. 29-34.

Angioedema, hereditary, danazol and stanozolol in long-term prophylactic treatment of (Agostoni A et al), 75
treatment with danazol, 10 (Abst.)
Animal, laboratory, allergen extracts, immunotherapy with, efficacy and specificity of (Wahn U, Siraganian RP), 413
Announcements, 82, 238, 315, 402, 483
Antazoline-induced allergic pneumonitis, 20 (Abst.)
Antibiotic, non-, effects of macrolide antibiotics of oleandomycin-erythromycin group with special reference to their "steroid-sparing" effects (Selenke WM et al), 454
therapy, long-term, eosinophilic occlusive pulmonic panarteritis associated with, 28 (Abst.)
Antibody(ies), anti-hapten, precipitating, due to diphenylmethane diisocyante (MDI) exposure, IgE-mediated asthma and hypersensitivity pneumonitis with (Zeiss CR et al), 346
complement-dependent sperm-immobilizing, infertility in women with, presence of complement in human cervical mucus and possible relevance to, 18 (Abst.)
IgE, comparison of mini-RAST and other varieties of radioallergosorbent test for measurement of (Gleich GJ et al), 20
differences in reactivity of short and giant ragweed with (Gleich GJ et al), 110
and IgD, production of, influence of different adjuvants on, 11 (Abst.)
and IgG4, in specific human allergies, 12 (Abst.)
response, induction of, in mice after treatment with contaminated but not with pure penicillin; antigens in penicillin allergy, 23 (Abst.)
in toluene diisocyanate workers (Karol MH, Alarie Y); Reply (Salvaggio J, Butcher BT), 162 (Correspondence)
in vitro measurement of, by radioallergosorbent test (Adkinson NF Jr), 1 (Editorial)
to nucleic acid antigens in selective IgA deficiency, 19 (Abst.)
suppressor-cell, in systemic lupus erythematosus; possible mechanism for suppressor-cell dysfunction in, 8 (Abst.)
Antigen(s), bronchial sensitivity to, effect of environmental exposure on, 17 (Abst.)
intraperitoneal injection of, into actively sensitized rats, effects of drugs on acute inflammation following, 10 (Abst.)
and mitogen, in vitro response to, in pigeon breeders' disease; study of lung lavage materials in patients with hypersensitivity pneumonitis (Moore VL et al), 365
mixed and breed-specific, clinical comparison of skin testing and radioallergosorbent test in dog-sensitive patients using, 20 (Abst.)
nucleic acid, antibodies to, in selective IgA deficiency, 19 (Abst.)
in penicillin allergy; induction of IgE antibody response in mice after treatment with contaminated but not with pure penicillin, 23 (Abst.)
and *Penicillium* species, hypersensitivity pneumonitis induced by (Solley GO, Hyatt RE), 65
"recall," and nonspecific suppression by T lymphocytes, memory for—human mucosal lymphocytes, 7 (Abst.)
transfer, route of, from mother to young; intestinal absorption of immune complexes by neonatal rats, 7 (Abst.)
Antigenemia, demonstration of, by radioimmunoassay in rabbits experimentally infected with *Aspergillus*, 2 (Abst.)
Arthritis, rheumatoid, serum IgE concentrations in; lack of correlation with gold toxicity, 26 (Abst.)
Aspergillosis, bronchopulmonary, allergic, and bilateral fungal balls terminating in disseminated aspergillosis (Anderson CJ et al), 140
Aspergillus, demonstration of antigenemia by radioimmunoassay in rabbits experimentally infected with, 2 (Abst.)
Asthma, allergen-induced, placebo-controlled trial of ketotifen in, and comparison with disodium cromoglycate, 4 (Abst.)
Asthma—Cont'd
allergic, subjects with, and nonasthmatic subjects with allergic rhinitis, comparison of responses to pollen extract in (Fish JE et al), 154
beclomethasone treatment of, complicated by candidiasis and dysphonia (Toogood JH et al), 145
bronchial, airways in patients with, influence of small atmospheric ions on, 30 (Abst.)
cockroaches in relation to, 23 (Abst.)
pollen, and allergic rhinitis, T and B lymphocytes in, 5 (Abst.)
childhood, relative merits of cromolyn sodium and high-dose theophylline therapy in (Godfrey S), 97 (Review article)
due to western red cedar *(Thuja plicata)*, activation of complement by plicatic acid, chemical compound responsible for (Chan-Yeung M et al), 333
exercise-induced, 5 (Abst.)
and hay fever, 1, 5, 17, 23, 29 (Absts.)
IgE-mediated, and hypersensitivity pneumonitis with precipitating anti-hapten antibodies due to diphenylmethane diisocyanate (MDI) exposure (Zeiss CR et al), 346
induced by quillaja bark (soapbark) (Raghuprasad PK et al), 285
toluene diisocyanate–induced (Karol MH, Alarie Y); Reply (Salvaggio J, Butcher BT), 162 (Correspondence)
Asthmatic(s), evaluation of selected parameters of immune function in, after long-term corticosteroid therapy, 2 (Abst.)
long-term corticosteroid effect on lymphocyte and polymorphonuclear cell function in (Chiang J-L et al), 263
model, canine, mechanical alteration of airway smooth muscle in, 33 (Abst.)
patient, high-risk, identification of; experience with 39 patients undergoing ventilation for status asthmaticus, 1 (Abst.)
Athlete, trained, and unconditioned individual, effect of exercise on granulocyte response to isoproterenol in (Busse WW et al), 358
Atopic dermatitis, dissociation of delayed cutaneous hypersensitivity and lymphocyte transformation in, 12 (Abst.)
localized herpes simplex infections in, 9 (Abst.)
significance of trichophytin reactivity in, 3 (Abst.)
in vitro histamine and serotonin release studies in, 31 (Abst.)
disease(s), immunogenetics of (Blumenthal MN et al), 403 (Editorial)
in infancy, comparison of cord blood IgE concentrations and maternal allergy for prediction of (Michel FB et al), 422
in ulcerative colitis and Crohn's disease, 3 (Abst.)
patients, production of IgE complexes by allergen challenge in, and effect of sodium cromoglycate, 17 (Abst.)
Atopy, constitutional basis of, and radioligand binding approach in study of lymphocytic adrenoceptors (Szentivanyi A), 5 (Editorial)
Atrovent: *see* Ipratropium bromide

B

B and T lymphocytes in respiratory pollen allergies (bronchial pollen asthma and allergic rhinitis), 5 (Abst.)
Bark, quillaja (soapbark), asthma induced by (Raghuprasad PK et al), 285
Basophil(s) chemotaxis, existence of, in subjects with hay fever (Hirsch SR, Kalbfleisch JH), 274
human, passive sensitization; evidence for heterogeneity in IgE molecule, 30 (Abst.)
leukemia cells, Ig-mediated triggering of, in rat; lack of evidence for serine esterase activity, 16 (Abst.)
Beclomethasone treatment of asthma, complicated by candidiasis and dysphonia (Toogood JH et al), 145
Benzopyranopyridine derivative (Y-12,141), antiallergic activities of, in rats, 28 (Abst.)
Beta adrenergic agents, long-term administration of (Davies HJ), 80; Reply (Jenne JW), 80 (Correspondence)

Beta adrenergic—Cont'd
blockade, bronchial response to methacholine and histamine in monkeys with (Mue S et al), 338
receptors, drug-induced desensitization of (Morris HG), 83 (Editorial)
in lymphocyte subpopulations (Bishopric NH et al), 29
adrenoreceptor stimulants, anti-inflammatory effects of, 10 (Abst.)
sympathomimetics, modification of slow-reacting substance by, and release of slow-reacting substance from anaphylactic lung tissue, 26 (Abst.)
Bird fanciers' lung, impaired CO transfer factors in, 15 (Abst.)
Blastomycosis, pulmonary, relapsed, lymphocyte function in (Sohnle PG et al), 376
Breast feeding, effect of, on incidence of infection and allergy, prospective studies of, 14 (Abst.)
Bronchial asthma, airways in patients with:, influence of small atmospheric ions on, 30 (Abst.)
cockroaches in relation to. 23 (Abst.)
lumen mast cells which are homogeneous by electron microscopy, heterogeneity of (Patterson R et al), 278
response(s) to allergen, correlation of, with bronchial responses to histamine and circulating IgE; respiratory allergy to ragweed (Popa VT), 389
to methacholine and histamine in monkeys with beta adrenergic blockade (Mue S et al), 338
sensitivity to antigen, effect of environmental exposure on, 17 (Abst.)
Bronchoconstriction after exercise, 5 (Abst.)
Bronchodilators, combination; antagonism of airway smooth muscle contractions in vitro, 27 (Abst.)
Bronchopulmonary aspergillosis, allergic, and bilateral fungal balls terminating in disseminated aspergillosis (Anderson CJ et al), 140
Burns and immune network, 30 (Abst.)

C

C1 esterase inhibitor, gene controlling synthesis of, is not linked to genes of HLA system and is not on sixth chromosome, 15 (Abst.)
cAMP: *see* Cyclic adenosine monophosphate
Candidiasis, chronic mucocutaneous, and endocrinopathies, patients with, effect of thymosin on lymphocytes from (Akhter J et al), 34
and dysphonia complicating beclomethasone treatment of asthma (Toogood JH et al), 145
mucocutaneous, patient with, cell-directed inhibition of polymorphonuclear leukocyte chemotaxis in (Cates KL et al), 431
Canine asthmatic model, mechanical alteration of airway smooth muscle in, 33 (Abst.)
Carbon monoxide transfer factors, impaired, in bird fanciers' lung, 15 (Abst.)
Cedar, western red, or *Thuja plicata*, activation of complement by plicatic acid, chemical compound responsible for asthma due to (Chan-Yeung M et al), 333
Cell-directed inhibition of polymorphonuclear leukocyte chemotaxis in patient with mucocutaneous candidiasis (Cates KL et al), 431
Cell(s), mast, bronchial lumen, which are homogeneous by electron microscopy, heterogeneity of (Patterson R et al), 278
-mediated immunity in atopic dermatitis, 12 (Abst.)
functions, impairment of, by dietary zinc deficiency in mice, 11 (Abst.)
origin and migration patterns of, in secretory system; mucosal immunity (Tomasi TB et al), 12 (Postgraduate course presentation)
polymorphonuclear, and lymphocyte function, long-term corticosteroid effect on, in asthmatics (Chiang J-L et al), 263
Cell—Cont'd
recombination analysis, in vitro, profile of multiple lymphocyte functional defects in acquired hypogammaglobulinemia, derived from (Ashman RF et al), 242
walls, *Micropolyspora faeni*, mitogenic response to (Smith SM et al), 298
Cellular immunity in children with acute rheumatic fever and rheumatic carditis, 25 (Abst.)
regulation of immune function (Broder S), 239 (Editorial)
Cervical mucus, human, presence of complement in, and possible relevance to infertility in women with complement-dependent sperm-immobilizing antibodies, 18 (Abst.)
Chemotaxis, basophil, existence of, in subjects with hay fever (Hirsch SR, Kalbfleisch JH), 274
polymorphonuclear leukocyte, cell-directed inhibition of, in patient with mucocutaneous candidiasis (Cates KL et al), 431
Childhood asthma, relative merits of cromolyn sodium and high-dose theophylline therapy in (Godfrey S), 97 (Review article)
clinical, gastroenterological, and immunological studies, spectrum of cow's milk allergy in, 32 (Abst.)
Children with acute rheumatic fever and rheumatic carditis, cellular immunity in, 25 (Abst.)
Chromosome, sixth, and gene controlling synthesis of C1 esterase inhibitor, 15 (Abst.)
Chrysotherapy side effects, mediation of, 26 (Abst.)
Cockroaches in relation to bronchial asthma in Durban area, 23 (Abst.)
Cold urticaria, treatment of, role of cyproheptadine in (Sigler RW et al), 309
Colitis, ulcerative, and Crohn's disease, atopic disease in, 3 (Abst.)
Complement, activation of, by plicatic acid, chemical compound responsible for asthma due to western red cedar *(Thuja plicata)* (Chan-Yeung M et al), 333
alternative pathway of, activation of; mechanism in search of diseases (Wilson MR, Salvaggio JE), 319 (Editorial)
activity of, after splenectomy; comparison to activity in sickle cell disease and hypogammaglobulinemia, 27 (Abst.)
-dependent sperm-immobilizing antibody, infertility in women with, presence of complement in human cervical mucus and possible relevance to, 18 (Abst.)
Contraceptives, hormonal, immune reactivity of women on; dinitrochlorobenzene sensitization test and skin reactivity to irritants, 13 (Abst.)
Cord blood IgE concentrations and maternal allergy, comparison of, for prediction of atopic diseases in infancy (Michel FB et al), 422
Correspondence, 80, 162, 313, 398, 482
Corticosteroid effect, long-term, on lymphocyte and polymorphonuclear cell function in asthmatics (Chiang J-L et al), 263
therapy, long-term, evaluation of selected parameters of immune function in asthmatics after, 2 (Abst.)
Cost of testing and treating with Hymenoptera venom extracts (Lockey RF), 398 (Correspondence)
Cricket hypersensitivity, 29 (Abst.)
inhalant allergy due to (Bagenstose AH III et al), 71
Crohn's disease and ulcerative colitis, atopic disease in, 3 (Abst.)
Cromolyn inhibition of histamine secretion, 34 (Abst.)
sodium and high-dose theophylline therapy, relative merits of, in childhood asthma (Godfrey S), 97 (Review article)
Cryosurgery or electrocauterization, tumor immunity following, 21 (Abst.)
Cutaneous histamine response, effect of H_1 and H_2 blockade on, in man (Harvey RP, Schocket AL), 136
hypersensitivity, delayed, and lymphocyte transformation; dissociation in atopic dermatitis, 12 (Abst.)
reaction, immediate and late, to allergen, evaluation of pharmacologic inhibition of (Smith JA et al), 118

Cyclic adenosine monophosphate levels, catecholamine-responsive, and beta adrenergic receptors in lymphocyte subpopulations (Bishopric NH et al), 29
Cyproheptadine, role of, in treatment of cold urticaria (Sigler RW et al), 309
Cystic fibrosis, allergy in, 13 (Abst.)

D

Danazol and stanozolol in long-term prophylactic treatment of hereditary angioedema (Agostoni A et al), 75
  treatment of hereditary angioedema with, 10 (Abst.)
Dermatitis, atopic, dissociation of delayed cutaneous hypersensitivity and lymphocyte transformation in, 12 (Abst.)
  localized herpes simplex infections in, 9 (Abst.)
  significance of trichophytin reactivity in, 3 (Abst.)
  in vitro histamine and serotonin release studies in, 31 (Abst.)
  nylon stocking, 20 (Abst.)
  photocontact, to hydrocortisone, 3 (Abst.)
Dermatophagoides pteronyssinus allergens, studies on; measurement of relative potencies of *D. pteronyssinus* purified extracts by in vitro and in vivo methods (Le Mao L et al), 381
Desensitization, drug-induced, of beta adrenergic receptors (Morris HG), 83 (Editorial)
Diagnostic utility of radioallergosorbent test in IgE-mediated disease (Adkinson NF Jr), 1 (Editorial)
Dietary zinc deficiency, impairment of cell-mediated immunity functions by, in mice, 11 (Abst.)
Dihydroxypropyl theophylline (dyphylline), intravenous, utilization of, in aminophylline-sensitive patient, and its pharmacokinetic comparison with theophylline (Lawyer CH et al), 353
Dinitrochlorobenzene sensitization test and skin reactivity to irritants; immune reactivity of women on hormonal contraceptives, 13 (Abst.)
Diphenhydramine and prednisone, premedication with, recurrence of severe anaphylactoid reaction to radiographic contrast media despite, 32 (Abst.)
Diphenylmethane diisocyanate (MDI) exposure, IgE-mediated asthma and hypersensitivity pneumonitis with precipitating anti-hapten antibodies due to (Zeiss CR et al), 346
Disodium cromoglycate, placebo-controlled trial of ketotifen in allergen-induced asthma and comparison with, 4 (Abst.)
DNA synthesis; requisite for differentiation of B lymphocytes into Ig-secreting plasma cell? 2 (Abst.)
Dog-sensitive patients, clinical comparison of skin testing and radioallergosorbent test in, using mixed and breed-specific antigens, 20 (Abst.)
Dressings, periodontal, sensitizing potential of, 9 (Abst.)
Drug-induced desensitization of beta adrenergic receptors (Morris HG), 83 (Editorial)
Dyes in nylon stockings, contact sensitivity to, 20 (Abst.)
Dyphylline (dihydroxypropyl theophylline), intravenous, utilization of, in aminophylline-sensitive patient, and its pharmacokinetic comparison with theophylline (Lawyer CH et al), 353
Dysphonia and candidiasis complicating beclomethasone treatment of asthma (Toogood JH et al), 145

E

Elderly, active rosette-forming T cells in, 8 (Abst.)
Electrocauterization or cryosurgery, tumor immunity following, 21 (Abst.)
Electron microscopy, heterogeneity of bronchial lumen mast cells which are homogeneous by (Patterson R et al), 278
Encephalitis, persistent, due to measles virus, potentiation of experimental allergic encephalomyelitis in hamsters with, 6 (Abst.)
Encephalomyelitis, allergic, experimental, potentiation of, in hamsters with persistent encephalitis due to measles virus, 6 (Abst.)
Endocrinopathies and chronic mucocutaneous candidiasis, patients with, effect of thymosin on lymphocytes from (Akhter J et al), 34
Environmental exposure, effect of, on bronchial sensitivity to antigen, 17 (Abst.)
Eosinopenic response, correlation of, to flunisolide plasma levels in humans (Chaplin MD et al), 445
Eosinophilia, nasal, meaning of, characterization of allergic and nonallergic rhinitis with attention to (Mullarkey MF et al), 122
Eosinophilic occlusive pulmonic panarteritis associated with long-term antibiotic therapy, 28 (Abst.)
Erratum, 470
Erythromycin lactobionate, intravenous, lack of effect of, on theophylline clearance (Kimelblatt BJ, Slaughter RL), 313 (Correspondence)
Esterase activity, serine, lack of evidence for; Ig-mediated triggering of rat basophil leukemia cells, 16 (Abst.)
  inhibitor, C1, gene controlling synthesis of, is not linked to genes of HLA system and is not on sixth chromosome, 15 (Abst.)
Estrogen and progesterone, effects of, on immunologic function, 13 (Abst.)
Evolution of asymptomatic monoclonal gammopathies, 15 (Abst.)
Exercise, effect of, on granulocyte response to isoproterenol in trained athlete and unconditioned individual (Busse WW et al), 358
  -induced asthma, 5 (Abst.)
Exophthalmos due to polypoid sinusitis, 31 (Abst.)
Extracts, allergenic, immunization with, clinical effects of (Norman PS), 87 (Postgraduate course presentation)
  purified, *Dermatophagoides pteronyssinus*, measurement of relative potencies of, by in vitro and in vivo methods; studies on *D. pteronyssinus* allergens (Le Mao L et al), 381

F

α-Fetoprotein, human, suppression of human lymphocyte transformation by, further studies on mechanism of (Yachnin S et al), 127
Flunisolide, intranasal, in treatment of perennial rhinitis; correlation with immunologic parameters (Incaudo G et al), 41
  plasma levels, correlation of, to eosinopenic response in humans (Chaplin MD et al), 445
Food allergy(ies) and migraine, 24 (Abst.)
  response to treatment with sodium cromoglycate, 19 (Abst.)
Fungal balls, bilateral, and allergic bronchopulmonary aspergillosis, terminating in disseminated aspergillosis (Anderson CJ et al), 140

G

Gammopathies, monoclonal, asymptomatic, evolution of, 15 (Abst.)
Gene controlling synthesis of C1 esterase inhibitor is not linked to genes of HLA system and is not on sixth chromosome, 15 (Abst.)
Genetic(s) factors, HLA-linked or -associated, in pigeon breeders' disease, 24 (Abst.)
  of human immune response to allergens (Marsh DG et al), 322 (Postgraduate course presentation)
Gold toxicity, lack of correlation of serum IgE concentrations in rheumatoid arthritis with, 26 (Abst.)
Granulocyte response to isoproterenol, effect of exercise on, in trained athlete and unconditioned individual (Busse WW et al), 358

Granulomatous disease, chronic, refractory *Pneumocystis carinii* infection in; successful treatment with granulocytes, 14 (Abst.)

H

H_1 and H_2 blockade, effect of, on cutaneous histamine response in man (Harvey RP, Schocket AL), 136
Hapten, anti-, antibodies, precipitating, due to diphenylmethane diisocyanate (MDI) exposure, IgE-mediated asthma and hypersensitivity pneumonitis with (Zeiss CR et al), 346
Hay fever and asthma, 1, 5, 17, 23, 29 (Absts.)
ragweed pollen, Rinkel method of immunotherapy for, controlled study of effectiveness of (Van Metre TE Jr et al), 288
subjects with, existence of basophil chemotaxis in (Hirsch SR, Kalbfleisch JH), 274
Hemorrhage, laryngeal, acute, with laryngeal obstruction initially confused with penicillin anaphylaxis (Grammer L et al), 465 (Brief communication)
Henoch-Schönlein purpura, IgA immune complexes in, 21 (Abst.)
Hereditary angioedema, danazol and stanozolol in long-term prophylactic treatment of (Agostoni A et al), 75
treatment with danazol, 10 (Abst.)
Herpes simplex infections, localized, in atopic dermatitis, 9 (Abst.)
Heterogeneity of bronchial lumen mast cells which are homogeneous by electron microscopy (Patterson R et al), 278
Histamine and circulating IgE, bronchial responses to, correlation of bronchial responses to allergen with; respiratory allergy to ragweed (Popa VT), 389
and methacholine, bronchial response to, in monkeys with beta adrenergic blockade (Mue S et al), 338
release in cold urticaria before and after cyproheptadine (Sigler RW et al), 309
inhibition of, by organophosphates, method of inhibition of, 16 (Abst.)
response, cutaneous, effect of H_1 and H_2 blockade on, in man (Harvey RP, Schocket AL), 136
secretion, inhibition by cromolyn, 34 (Abst.)
and serotonin release, in vitro, studies of, in atopic dermatitis, 31 (Abst.)
skin, in chronic urticaria (Phanuphak P et al), 371
Histocompatibility complex and immunogenetics of atopic diseases (Blumenthal MN et al), 403 (Editorial)
Histologic basis of chronic urticaria, vasculitis and (Phanuphak P et al), 436
HLA A, B, C, and DR specificities, study of, in pigeon breeders' disease, 23 (Abst.)
system, genes of, and gene controlling synthesis of C1 esterase inhibitor, 15 (Abst.)
Hormonal contraceptives, immune reactivity of women on; dinitrochlorobenzene sensitization test and skin reactivity to irritants, 13 (Abst.)
Hydrocortisone, photocontact dermatitis to, 3 (Abst.)
Hymenoptera allergy, natural history of, 9 (Abst.)
sensitivity; anaphylactic reactions in skin test–negative patients (Selcow JE et al), 400 (Correspondence)
venom extracts, cost of testing and treating with (Lockey RF), 398 (Correspondence)
Hypersensitivity to cricket, 29 (Abst.)
allergens (Bagenstose AH III et al), 71
cutaneous, delayed, and lymphocyte transformation; dissociation in atopic dermatitis, 12 (Abst.)
pneumonitis and IgE-mediated asthma with precipitating antihapten antibodies due to diphenylmethane diisocyanate (MDI) exposure (Zeiss CR et al), 346
induced by *Penicillium* species (Solley GO, Hyatt RE), 65
study of lung lavage materials in patients with; in vitro response to mitogen and antigen in pigeon breeders' disease (Moore VL et al), 365
Hypogammaglobulinemia, acquired, profile of multiple lymphocyte functional defects in, derived from in vitro cell recombination analysis (Ashman RF et al), 242
congenital, *Pneumocystis carinii* pneumonia as presenting infection in, 20 (Abst.)
in mother and son (Beall GN et al), 471 (Allergy grand rounds)
and sickle cell disease, activity in, compared to activity of alternative complement pathway after splenectomy, 27 (Abst.)

I

Immune complexes, IgA, in Henoch-Schönlein purpura, 21 (Abst.)
intestinal absorption of, by neonatal rats; route of antigen transfer from mother to young, 7 (Abst.)
function, cellular regulation of (Broder S), 239 (Editorial)
evaluation of selected parameters of, in asthmatics after long-term corticosteroid therapy, 2 (Abst.)
network and burns, 30 (Abst.)
reactivity of women on hormonal contraceptives; dinitrochlorobenzene sensitization test and skin reactivity to irritants, 13 (Abst.)
response, human, to allergens, genetics of (Marsh DG et al), 322 (Postgraduate course presentation)
and human safety; polymerized whole ragweed (Kelly JF et al), 50
Immunity, cell-mediated, in atopic dermatitis, 12 (Abst.)
cellular, in children with acute rheumatic fever and rheumatic carditis, 25 (Abst.)
functions, cell-mediated, impairment of, by dietary zinc deficiency in mice, 11 (Abst.)
mucosal; origin and migration patterns of cells in secretory system (Tomasi TB et al), 12 (Postgraduate course presentation)
tumor, following crysurgery or electrocauterization, 21 (Abst.)
Immunization, clinical effects of, with allergenic extracts (Norman PS), 87 (Postgraduate course presentation)
Immunodeficiency disease, severe combined, abnormal lymphocyte capping in patient with, 18 (Abst.)
Immunogenecity, non-, of purified sodium hyaluronate preparation in man, 27 (Abst.)
Immunogenetics of atopic diseases (Blumenthal MN et al), 403 (Editorial)
Immunoglobulin(s) A deficiency, selective, antibodies to nucleic acid antigens in, 19 (Abst.)
immune complexes in Henoch-Schönlein purpura, 21 (Abst.)
E and D antibodies, production of, influence of different adjuvants on, 11 (Abst.)
antibody(ies), comparison of mini-RAST and other varieties of radioallergosorbent test for measurement of (Gleich GJ et al), 20
differences in reactivity of short and giant ragweed with (Gleich GJ et al), 110
response, induction of, in mice after treatment with contaminated but not with pure penicillin; antigens in penicillin allergy, 23 (Abst.)
in toluene diisocyanate workers (Karol MH, Alarie Y); Reply (Salvaggio J, Butcher BT), 162 (Correspondence)
circulating, and histamine, bronchial responses to, correlation of bronchial responses to allergen with; respiratory allergy to ragweed (Popa VT), 389
complexes, production of, by allergen challenge in atopic patients and effect of sodium cromoglycate, 17 (Abst.)
concentrations in cord blood and maternal allergy, comparison of, for prediction of atopic diseases in infancy (Michel FB et al), 422
and G4 antibodies in specific human allergies, 12 (Abst.)
in cystic fibrosis, 13 (Abst.)

Immunoglobulin E—Cont'd
–mediated asthma and hypersensitivity pneumonitis with precipitating anti-hapten antibodies due to diphenylmethane diisocyanate (MDI) exposure (Zeiss CR et al), 346
disease, diagnostic utility of RAST in (Adkinson NF Jr), 1 (Editorial)
molecule, evidence for heterogeneity in; passive sensitization of human basophils, 30 (Abst.)
serum, concentrations, in rheumatoid arthritis; lack of correlation with gold toxicity, 26 (Abst.)
-mediated triggering of rat basophil leukemia cells; lack of evidence for serine esterase activity, 16 (Abst.)
-secreting plasma cell, requisite for differentiation of B lymphocytes into; DNA synthesis, 2 (Abst.)
Immunologic function, effects of estrogen and progesterone on, 13 (Abst.)
mechanisms, underlying, evaluation of; recurrent meningococcal meningitis with absence of C6, 6 (Abst.)
parameters, transfer factor and, in Wiskott-Aldrich syndrome, 24 (Abst.)
response to cricket, 29 (Abst.)
Immunology, 2, 6, 11, 18, 23, 30 (Absts.)
Allergy and, Self-Assessment Program 1980: *see* Allergy and Immunology Self-Assessment Program 1980
Immunologic parameters, correlation with; intranasal flunisolide in treatment of perennial rhinitis (Incaudo G et al), 41
Immunotherapy, improved method of, 2-year follow-up of patients treated with; polymerized whole ragweed (Hendrix S et al), 57
with laboratory animal allergen extracts, efficacy and specificity of (Wahn U, Siraganian RP), 413
overview of; implications for future (Norman PS), 87 (Postgraduate course presentation)
Rinkel method of, for ragweed pollen hay fever, controlled study of effectiveness of (Van Metre TE Jr et al), 288
safety of, prospective national study of, 29 (Abst.)
venom (Barysh N); Reply (Lichtenstein LM), 482 (Correspondence)
Impactors, rotating-arm, performance of adhesives for (Solomon WR et al), 467 (Brief communication)
Infancy, atopic disease in, comparison of cord blood IgE concentrations and maternal allergy for prediction of (Michel FB et al), 422
Infection and allergy, incidence of, effect of breast feeding on, prospective studies of, 14 (Abst.)
Pneumocystis carinii, refractory, in chronic granulomatous disease; successful treatment with granulocytes, 14 (Abst.)
presenting, *Pneumocystis carinii* pneumonia as, in congenital hypogammaglobulinemia, 20 (Abst.)
Infertility in women with complement-dependent sperm-immobilizing antibodies, presence of complement in human cervical mucus and possible relevance to, 18 (Abst.)
Inflammation, acute, following intraperitoneal injection of antigen into actively sensitized rats, effects of drugs on, 10 (Abst.)
Inhalant allergy due to crickets (Bagenstose AH III et al), 71
In memoriam, 317
Insect venom, serum albumin in, and religious preference (Traynor LA), 81 (Correspondence)
Intestinal absorption of immune complexes by neonatal rats; route of antigen transfer from mother to young, 7 (Abst.)
Intranasal flunisolide in treatment of perennial rhinitis; correlation with immunologic parameters (Incaudo G et al), 41
Ions, atmospheric, small, influence of, on airways in patients with bronchial asthma, 30 (Abst.)
Ipratropium bromide, pharmacology and toxicology of, 22 (Abst.)
Isoproterenol, granulocyte response to, effect of exercise on, in trained athlete and unconditioned individual (Busse WW et al), 358
Isoproterenol—Cont'd
inhaled, tachyphylaxis to, and effect of methylprednisolone in dogs (Stephan WC et al), 105

K

Ketotifen, placebo-controlled trial of, in allergen-induced asthma and comparison with disodium cromoglycate, 4 (Abst.)

L

Laryngeal hemorrhage, acute, with laryngeal obstruction initially confused with penicillin anaphylaxis (Grammer L et al), 465 (Brief communication)
Lavage materials, lung, study of, in patients with hypersensitivity pneumonitis; in vitro response to mitogen and antigen in pigeon breeders' disease (Moore VL et al), 365
Leukemia cells, rat basophil, Ig-mediated triggering of; lack of evidence for serine esterase activity, 16 (Abst.)
Leukocyte, polymorphonuclear, chemotaxis, cell-directed inhibition of, in patient with mucocutaneous candidiasis (Cates KL et al), 431
Lodoxamide ethyl, effect of, on allergy skin tests (Frigas E, Reed CE), 257
Lowell, Francis Cabot, 317 (In memoriam)
Lumen, bronchial, mast cells which are homogeneous by electron microscopy, heterogeneity of (Patterson R et al), 278
Lung lavage materials, study of, in patients with hypersensitivity pneumonitis; in vitro response to mitogen and antigen in pigeon breeders' disease (Moore VL et al), 365
tissue, anaphylactic, release of slow-reacting substance from, and modification of slow-reacting substance by beta sympathomimetics, 26 (Abst.)
volume, total, and impaired CO transfer factors in bird fanciers' lung, 15 (Abst.)
Lymphocyte(s), B, differentiation of, into Ig-secreting plasma cell, requisite for; DNA synthesis, 2 (Abst.)
capping, abnormal, in patient with severe combined immunodeficiency disease, 18 (Abst.)
function in relapsed pulmonary blatomycosis (Sohnle PG et al), 376
functional defects, multiple, profile of, in acquired hypogammaglobulinemia, derived from in vitro cell recombination analysis (Ashman RF et al), 242
human mucosal—memory for "recall" antigens and nonspecific suppression by T lymphocytes, 7 (Abst.)
transformation, suppression by human alpha fetoprotein, further studies on mechanism of (Yachnin S et al), 127
from patients with chronic mucocutaneous candidiasis and endocrinopathies, effect of thymosin on (Akhter J et al), 34
and polymorphonuclear cell function, long-term corticosteroid effect on, in asthmatics (Chiang J-L et al), 263
subpopulations, beta adrenergic receptors in (Bishopric NH et al), 29
transformation and delayed cutaneous hypersensitivity; dissociation in atopic dermatitis, 12 (Abst.)
Lymphocytic adrenoceptors, radioligand binding approach in study of, and constitutional basis of atopy (Szentivanyi A), 5 (Editorial)

M

Macrolide antibiotics of oleandomycin-erythromycin group with special reference to their "steroid-sparing" effects, nonantibiotic effects of (Selenke WM et al), 454
Mast cell(s), bronchial lumen, which are homogeneous by electron microscopy, heterogeneity of (Patterson R et al), 278
protein, regulated phosphorylation of, cromolyn inhibition of histamine secretion by, 34 (Abst.)
Mastocytosis, systemic, fatal anaphylaxis in, 25 (Abst.)

Measles virus, persistent encephalitis due to, potentiation of experimental allergic encephalomyelitis in hamsters with, 6 (Abst.)
Mechanism of suppression of human lymphocyte transformation by human alpha fetoprotein, further studies on (Yachnin S et al), 127
Mediator release, nonspecific mechanism of; complement activation (Wilson MR, Salvaggio JE), 319 (Editorial)
Meningitis, meningococcal, recurrent, with absence of C6; evaluation of underlying immunologic mechanisms, 6 (Abst.)
Metabolism of theophylline, lack of effect of erythromycin on (Kimelblatt BJ, Slaughter RL), 313 (Correspondence)
Methacholine and histamine, bronchial response to, in monkeys with beta adrenergic blockade (Mue S et al), 338
Methylprednisolone, effect of, and tachyphylaxis to inhaled isoproterenol in dogs (Stephan WC et al), 105
Micropolyspora faeni cell walls, mitogenic response to (Smith SM et al), 298
Migraine and food allergies, 24 (Abst.)
Milk, cow's, allergy, spectrum of, in childhood clinical, gastroenterological, and immunological studies, 32 (Abst.)
Mini-RAST; comparison with other varieties of radioallergosorbent test for measurement of IgE antibodies (Gleich GJ et al), 20
Mitogen and antigen, in vitro response to, in pigeon breeders' disease; study of lung lavage materials in patients with hypersensitivity pneumonitis (Moore VL et al), 365
Mitogenic response to *Micropolyspora faeni* cell walls (Smith SM et al), 298
Monoclonal gammopathies, asymptomatic, evolution of, 15 (Abst.)
Mother and son, hypogammaglobulinemia in (Beall GN et al), 471 (Allergy grand rounds)
to young, route of antigen transfer from; intestinal absorption of immune complexes by neonatal rats, 7 (Abst.)
Mucocutaneous candidiasis, patient with, cell-directed inhibition of polymorphonuclear leukocyte chemotaxis in (Cates KL et al), 431
Mucosa, nasal, allergic, and vidian neurectomy, 13 (Abst.)
Mucosal immunity; origin and migration patterns of cells in secretory system (Tomasi TB et al), 12 (Postgraduate course presentation)
lymphocytes, human—memory for "recall" antigens and nonspecific suppression by T lymphocytes, 7 (Abst.)
Mucus, cervical, human, presence of complement in, and possible relevance to infertility in women with complement-dependent sperm-immobilizing antibodies, 18 (Abst.)

N

Nasal eosinophilia, meaning of, characterization of allergic and nonallergic rhinitis with attention to (Mullarkey MF et al), 122
mucosa, allergic, and vidian neurectomy, 13 (Abst.)
Neisserian infections, predisposition to, with absence of C6; evaluation of underlying immunologic mechanisms, 6 (Abst.)
Neonates, placental transfer of theophylline in, 33 (Abst.)
Neurectomy, vidian, and allergic nasal mucosa, 13 (Abst.)
Nucleic acid antigens, antibodies to, in selective IgA deficiency, 19 (Abst.)
Nylon stocking dermatitis; unusual example, 20 (Abst.)

O

Obituary: *see* In memoriam
Oleandomycin-erythromycin group, macrolide antibiotics of, nonantibiotic effects of, with special reference to "steroid-sparing" effects (Selenke WM et al), 454
Orbital malignancy, polypoid sinusitis mimicking, 31 (Abst.)
Organophosphates, histamine release by, method of inhibition of, 16 (Abst.)

P

Panarteritis, occlusive pulmonic, eosinophilic, associated with long-term antibiotic therapy, 28 (Abst.)
Parietera officinalis L. allergy (Charpin J, Charpin H), 80 (Correspondence)
Particulate allergens, exclusion of, by window air conditioners (Solomon WR et al), 305
Pathology, pharmacology, and physiology, 4, 10, 15, 21, 25, 33 (Absts.)
Pediatrics, 14, 20, 24, 32 (Absts.)
Penicillin allergy, antigens in; induction of IgE antibody response in mice after treatment with contaminated but not with pure penicillin, 23 (Abst.)
anaphylaxis, acute laryngeal hemorrhage with laryngeal obstruction initially confused with (Grammer L et al), 465 (Brief communication)
Penicillium species, hypersensitivity pneumonitis induced by (Solley GO, Hyatt RE), 65
Periodontal dressings, sensitizing potential of, 9 (Abst.)
Pharmacokinetic comparison of intravenous dihydroxypropyl theophylline (dyphylline) with theophylline, and its utilization in aminophylline-sensitive patient (Lawyer CH et al), 353
Pharmacologic inhibition of immediate and late cutaneous reaction to allergen, evaluation of (Smith JA et al), 118
Pharmacology, physiology, and pathology, 4, 10, 15, 21, 25, 33 (Absts.)
and toxicology of Atrovent, 22 (Abst.)
Phosphorylation of mast cell protein, regulation of, cromolyn inhibition of histamine secretion by, 34 (Abst.)
Photocontact dermatitis to hydrocortisone, 3 (Abst.)
Physiology, pathology, and pharmacology, 4, 10, 15, 21, 25, 33 (Absts.)
Pigeon breeders' disease, in vitro response to mitogen and antigen in; study of lung lavage materials in patients with hypersensitivity pneumonitis (Moore VL et al), 365
study of HLA-A, B, C, and DR specificities in, 24 (Abst.)
Placental transfer of theophylline; two case reports, 33 (Abst.)
Plasma cell, Ig-secreting, requisite for differentiation of B lymphocytes into; DNA synthesis, 2 (Abst.)
levels of flunisolide, correlation of, to eosinopenic response in humans (Chaplin MD et al), 445
Plicatic acid, chemical compound responsible for asthma due to western red cedar *(Thuja plicata)*, activation of complement by (Chan-Yeung M et al), 333
Pneumocystis carinii infection, refractory, in chronic granulomatous disease; successful treatment with granulocytes, 14 (Abst.)
pneumonia as presenting infection in congenital hypogammaglobulinemia, 20 (Abst.)
Pneumonitis, allergic, antazoline-induced, 20 (Abst.)
hypersensitivity, and IgE-mediated asthma, with precipitating anti-hapten antibodies due to diphenylmethane diisocyante (MDI) exposure (Zeiss CR et al), 346
induced by *Penicillium* species (Solley GO, Hyatt RE), 65
study of lung lavage materials in patients with; in vitro response to mitogen and antigen in pigeon breeders' disease (Moore VL et al), 365
Poisoning, theophylline, 34 (Abst.)
Pollen allergens, purified, skin reactivity to, in highly ragweed-sensitive individuals (Santilli J Jr et al), 406
allergies, respiratory (bronchial pollen asthma and allergic rhinitis), T and B lymphocytes in, 5 (Abst.)
extract, responses to, in subjects with allergic asthma and nonasthmatic subjects with allergic rhinitis, comparison of (Fish JE et al), 154
ragweed, hay fever, Rinkel method of immunotherapy for, controlled study of effectiveness of (Van Metre TE Jr et al), 288
Pollenosis, ragweed, use of polymerized preparations in immunotherapy of (Kelly JF et al), 50

Polymerized whole ragweed; human safety and immune response (Kelly JF et al), 50
2-year follow-up of patients treated with improved method of immunotherapy (Hendrix S et al), 57
Polymorphonuclear cell and lymphocyte function, long-term corticosteroid effect on, in asthmatics (Chiang J-L et al), 263
chemotaxis, cell-directed inhibition of, in patient with mucocutaneous candidiasis (Cates KL et al), 431
Polypoid sinusitis mimicking orbital malignancy, 31 (Abst.)
Potencies, relative, of *Dermatophagoides pteronyssinus* purified extracts by in vivo and in vitro methods; studies on *D. pteronyssinus* allergens (Le Mao L et al), 381
Prednisone and diphenhydramine, premedication with, recurrence of severe anaphylactoid reaction to radiographic contrast media despite, 32 (Abst.)
Progesterone and estrogen, effects of, on immunologic function, 13 (Abst.)
Prostaglandin D_2 and I_2, effect of, on airways of rhesus monkeys (Patterson R et al), 269
Pulmonary blastomycosis, relapsed, lymphocyte function in (Sohnle PG et al), 376
Pulmonic panarteritis, occlusive, eosinophilic, associated with long-term antibiotic therapy, 28 (Abst.)
Purpura, Henoch-Schönlein, IgA immune complexes in, 21 (Abst.)

Q

Quillaja bark (soapbark)–induced asthma (Raghuprasad PK et al), 285

R

Radioallergosorbent test, other varieties of, and mini-RAST, comparison of, for measurement of IgE antibodies (Gleich GJ et al), 20
and skin testing, clinical comparison of, in dog-sensitive patients using mixed and breed-specific antigens, 20 (Abst.)
uses and abuses (Adkinson NF Jr), 1 (Editorial)
Radiographic contrast media, severe anaphylactoid reaction to; recurrence despite premedication with diphenhydramine and prednisone, 32 (Abst.)
Radioimmunoassay, demonstration of antigenemia by, in rabbits experimentally infected with *Aspergillus*, 2 (Abst.)
Radioligand binding approach in study of lymphocytic adrenoceptors and constitutional basis of atopy (Szentivanyi A), 5 (Editorial)
Ragweed pollen hay fever, Rinkel method of immunotherapy for, controlled study of effectiveness of (Van Metre TE Jr et al), 288
respiratory allergy to; correlation of bronchial responses to allergen with bronchial responses to histamine and circulating IgE (Popa VT), 389
-sensitive individuals, skin reactivity to purified pollen allergens in (Santilli J Jr et al), 406
short and giant, differences in reactivity of, with IgE antibodies (Gleich GJ et al), 110
whole, polymerized; human safety and immune response (Kelly JF et al), 50
2-year follow-up of patients treated with improved method of immunotherapy (Hendrix S et al), 57
Reactions, adverse systemic, to immunotherapy, prospective national study of, 29 (Abst.)
Reactivity of short and giant ragweed, differences in, with IgE antibodies (Gleich GJ et al), 110
Recombination, cell, analysis, in vitro, profile of multiple lymphocyte functional defects in acquired hypogammaglobulinemia, derived from (Ashman RF et al), 242
Regulatory cell subsets in abnormalities of immunity (Broder S), 239 (Editorial)
Respiration, assisted (IPPV), for status asthmaticus, experience with 39 patients undergoing; identification of high-risk asthmatic patient, 1 (Abst.)
Respiratory allergy to ragweed; correlation of bronchial responses to allergen with bronchial responses to histamine and circulating IgE (Popa VT), 389
pollen allergies (bronchial pollen asthma and allergic rhinitis), T and B lymphocytes in, 5 (Abst.)
tract smooth muscle contractions, antagonism of, in vitro; combination bronchodilators, 27 (Abst.)
Rheumatic carditis and acute rheumatic fever, children with, cellular immunity in, 25 (Abst.)
fever, acute, and rheumatic carditis, children with, cellular immunity in, 25 (Abst.)
Rheumatoid arthritis, serum IgE concentrations in; lack of correlation with gold toxicity, 26 (Abst.)
Rhinitis, allergic, and bronchial pollen asthma, T and B lymphocytes in, 5 (Abst.)
and nonallergic; their characterization with attention to meaning of nasal eosinophilia (Mullarkey MF et al), 122
nonasthmatic subjects with, and subjects with allergic asthma, comparison of responses to pollen extract in (Fish JE et al), 154
perennial, intranasal flunisolide in treatment of; correlation with immunologic parameters (Incaudo G et al), 41
Rinkel method of immunotherapy for ragweed pollen hay fever, controlled study of effectiveness of (Van Metre TE Jr et al), 288
Rosette-forming T cells, active, in elderly, 8 (Abst.)
Rotating-arm impactors, adhesives for, performance of (Solomon WR et al), 467 (Brief communication)

S

Safety, human, and immune response; polymerized whole ragweed (Kelly JF et al), 50
of immunotherapy, prospective national study of, 29 (Abst.)
Secretory system, origin and migration patterns of cells in; mucosal immunity (Tomasi TB et al), 12 (Postgraduate course presentation)
Sensitization, passive, of human basophils; evidence for heterogeneity in IgE molecule, 30 (Abst.)
Sensitizing potential of periodontal dressings, 9 (Abst.)
Sepsis, fatal, risk of, and burns; immunocompetence as factor in, 30 (Abst.)
Serine esterase activity, lack of evidence for; Ig-mediated triggering of rat basophil leukemia cells, 16 (Abst.)
Serotonin and histamine release, in vitro, studies of, in atopic dermatitis, 31 (Abst.)
Serum albumin in insect venom, and religious preference (Traynor LA), 81 (Correspondence)
IgE concentrations in rheumatoid arthritis; lack of correlation with gold toxicity, 26 (Abst.)
Severe combined immunodeficiency disease (SCID), abnormal lymphocyte capping in patient with, 18 (Abst.)
Sickle cell disease and hypogammaglobulinemia, activity in, compared to activity of alternative complement pathway after splenectomy, 27 (Abst.)
Sinusitis, polypoid, mimicking orbital malignancy, 31 (Abst.)
Skin histamine in chronic urticaria (Phanuphak P et al), 371
reactivity to purified pollen allergens in highly ragweed-sensitive individuals (Santilli J Jr et al), 406
test(s), allergy, effect of lodoxamide ethyl on (Frigas E, Reed CE), 257
immediate, effect of theophylline and terbutaline on (Chipps BE et al), 61
–negative patients, anaphylactic reactions in (Selcow JE et al), 400 (Correspondence)
and radioallergosorbent test, clinical comparison of, in dog-sensitive patients using mixed and breed-specific antigens, 20 (Abst.)

Slow-reacting substance, release of, from anaphylactic lung tissue and its modification by beta sympathomimetics, 26 (Abst.)
Soapbark (quillaja bark), asthma induced by (Raghuprasad PK et al), 285
Sodium cromoglycate, effect of, and production of IgE complexes by allergen challenge in atopic patients, 17 (Abst.)
food allergy response to treatment with, 19 (Abst.)
hyaluronate preparation, nonimmunogenicity of, in man, 27 (Abst.)
Son and mother, hypogammaglobulinemia in (Beall GN et al), 471 (Allergy grand rounds)
Sperm-immobilizing antibodies, complement-dependent, infertility in women with, presence of complement in human cervical mucus and possible relevance to, 18 (Abst.)
Splenectomy, activity of alternative complement pathway after; comparison to activity in sickle cell disease and hypogammaglobulinemia, 27 (Abst.)
Stanozolol and danazol in long-term prophylactic treatment of hereditary angioedema (Agostoni A et al), 75
Status asthmaticus, experience with 39 patients undergoing ventilation for; identification of high-risk asthmatic patient, 1 (Abst.)
Steroid(s), 17 α-alkylated, in long-term prophylactic treatment of hereditary angioedema (Agostoni A et al), 75
-sparing effects, nonantibiotic effects of macrolide antibiotics of oleandomycin-erythromycin group with special reference to (Selenke WM et al), 454
Stocking, nylon, dermatitis, 20 (Abst.)
Suppressor-cell antibody in systemic lupus erythematosus; possible mechanism for suppressor-cell dysfunction, 8 (Abst.)
Systemic lupus erythematosus, suppressor-cell antibody in; possible mechanism for suppressor-cell dysfunction in, 8 (Abst.)
mastocytosis, fatal anphylaxis in, 25 (Abst.)

T

T and B lymphocytes in respiratory pollen allergies (bronchial pollen asthma and allergic rhinitis), 5 (Abst.)
T lymphocytes, nonspecific suppression by, and "recall" antigens, memory for—human mucosal lymphocytes, 7 (Abst.)
rosette-forming, active, in elderly, 8 (Abst.)
Tachyphylaxis to inhaled isoproterenol and effect of methylprednisoline in dogs (Stephan WC et al), 105
Terbutaline and theophylline, effect of, on immediate skin tests (Chipps BE et al), 61
Test(s), radioallergosorbent, other varieties of, and mini-RAST, comparison of, for measurement of IgE antibodies (Gleich GJ et al), 20
skin, allergy, effect of lodoxamide ethyl on (Frigas E, Reed CE), 257
immediate, effect of theophylline and terbutaline on (Chipps BE et al), 61
Testing and treating with Hymenoptera venom extracts, cost of (Lockey RF), 398 (Correspondence)
Theophylline clearance, lack of effect of intravenous erythromycin lactobionate on (Kimelblatt BJ, Slaughter RL), 313 (Correspondence)
high-dose, and cromolyn sodium therapy, relative merits of, in childhood asthma (Godfrey S), 97 (Review article)
pharmacokinetic comparison of intravenous dihydroxypropyl theophylline (dyphylline) with, and use of dyphylline in aminophylline-sensitive patient (Lawyer CH et al), 353
Theophylline—Cont'd
placental transfer of, 33 (Abst.)
poisoning in adults, 34 (Abst.)
and terbutaline, effect of, on immediate skin tests (Chipps BE et al), 61
Thermal injury and immune network, 30 (Abst.)
Thuja plicata (western red cedar), asthma due to, activation of complement by plicatic acid, chemical compound responsible for (Chan-Yeung M et al), 333
Thymosin, effect of, on lymphocytes from patients with chronic mucocutaneous candidiasis and endocrinopathies (Akhter J et al), 34
Toluene diisocyanate workers, IgE antibodies in (Karol MH, Alarie Y); Reply (Salvaggio J, Butcher BT), 162 (Correspondence)
Toxicity, gold, lack of correlation of serum IgE concentrations in rheumatoid arthritis with, 26 (Abst.)
theophylline, 34 (Abst.)
Toxicology and pharmacology of Atrovent, 22 (Abst.)
Transfer factor therapy in Wiskott-Aldrich syndrome; results of long-term follow-up in 32 patients, 24 (Abst.)
Treating and testing with Hymenoptera venom extracts, cost of (Lockey RF), 398 (Correspondence)
Trichophytin reactivity in atopic dermatitis, significance of, 3 (Abst.)
Tumor immunity following cryosurgery or electrocauterization, 21 (Abst.)

U

Urticaria, chronic, skin histamine in (Phanuphak P et al), 365
vasculitis in (Phanuphak P et al), 436
cold, treatment of, role of cyproheptadine in (Sigler RW et al), 309

V

Vasculitis in chronic urticaria (Phanuphak P et al), 436
Venom extracts, Hymenoptera, cost of testing and treating with (Lockey RF), 398 (Correspondence)
immunotherapy (Barysh N); Reply (Lichtenstein LM), 482 (Correspondence)
insect, serum albumin in, and religious preference (Traynor LA), 81 (Correspondence)
Vidian neurectomy and allergic nasal mucosa, 13 (Abst.)

W

Wiskott-Aldrich syndrome, transfer factor therapy in; results of long-term follow-up in 32 patients, 24 (Abst.)
Women with complement-dependent sperm-immobilizing antibody, infertility in, presence of complement in human cervical mucus and possible relevance to, 18 (Abst.)
on hormonal contraceptives, immune reactivity of; dinitrochlorobenzene sensitization test and skin reactivity to irritants, 13 (Abst.)

Y

Y-12,141 (new benzopyranopyridine derivative), antiallergic activities of, in rats, 28 (Abst.)

Z

Zinc deficiency, dietary, impairment of cell-mediated immunity functions by, in mice, 11 (Abst.)

Subject index

A

Absenteeism among school children with asthma, effects of progressive exercise program on, 29 (Abst.)
Academy of Allergy, American: *see* American Academy of Allergy
Acknowledgment to reviewers, 514
Adenoids and tonsils, localization of IgE in; immunoperoxidase study, 26 (Abst.)
Adrenergic, beta, agents, randomized evaluation of; management of acute asthma in childhood, 22 (Abst.)
  agonist, fenoterol, effect of, on nasal sensitivity to allergen (Schumacher MJ), 33
  blocker (propanolol) related to bronchospasm in patients without history of asthma, 21 (Abst.)
  receptors, granulocyte, characterization of, in atopic eczema (Ruoho AE et al), 46
  responsiveness, abnormal, in allergic subjects; analysis of isoproterenol-induced cardiovascular and plasma cyclic adenosine monophosphate responses (Shelhamer JH et al), 52
 non-, noncholinergic mediation demonstrated in vivo in cat; bronchodilatation, 4 (Abst.)
Adrenostimulant, beta-2 (fenoterol), inhibition of immediate allergic reaction in nose by (Borum P, Mygind N), 25
Aerosol, flunisolide, in adult patients with steroid-dependent asthma, multicenter study of (Slavin RG et al), 379
 histamine, in vivo effect of cimetidine on canine pulmonary responsiveness to (Snapper JR et al), 70
 metaproterenol, effect of sequential inhalations of, in asthma (Heimer D et al), 75
Age-related serum IgE levels in healthy subjects and in patients with allergic disease (Wittig HJ et al), 305
Aging animals, restoration of impaired immune function in; effect of mercaptoethanol in enhancing reduced primary antibody responsiveness in vivo, 7 (Abst.)
Airway response to exercise, magnitude and site of, in asthmatics, in relation to arterial histamine levels (McFadden ER Jr et al), 472
Allergen(s), *Alternaria*, studies on; isolation of major allergenic fraction (ALT-I) (Yunginger JW et al), 138
 individual, in skin reactivity, importance of, and heat stability of short ragweed pollen extract (Baer H et al), 281
 inhalation challenge, protective effect of lodoxamide tromethamine on (Watt GD et al), 286
 nasal sensitivity to, effect of beta adrenergic agonist, fenoterol, on (Schumacher MJ), 33
 pollen, IgG antibodies to, in children with rye-grass lung sensitivity, 23 (Abst.)
 purified, immediate hypersensitivity to, correlation between lymphocyte responses and (Black PL, Marsh DG), 394
 -specific IgE in serum, immunoperoxidase method for demonstration of, 24 (Abst.)
Allergic, anti-, drug, ketotifen, in adult asthma, 10 (Abst.)
  orally active (lodoxamide ethyl), prevention of antigen-induced bronchoconstriction by (Katcher ML, Reed CE), 223
 bronchopulmonary aspergillosis, late sequelae of (Greenberger PA et al), 327
Allergic—Cont'd
 bronchopulmonary mycoses, role of *Aspergillus* and *Candida* species in, 18 (Abst.)
 disease, patients with, and healthy subjects, age-related serum IgE levels in (Wittig HJ et al), 305
 histamine release, augmentation of, from human leukocytes by nonsteroidal anti-inflammatory–analgesic agents (Wojnar RJ et al), 37
 patients on injection therapy, failure to detect circulating immune complexes in, 18 (Abst.)
 reaction in the nose, immediate, inhibition of, by beta-2 adrenostimulant fenoterol (Borum P, Mygind N), 25
  parasite-induced nonspecific IgE does not protect against, 27 (Abst.)
 rhinitis, patients with, deposition of ragweed pollen and extract on nasal mucosa of; effect on nasal airflow resistance and nasal mucus velocity (Guercio JP et al), 61
  postural variations in nasal resistance and symptomatology in, 26 (Abst.)
 skin reactions, human, patterns of mast cell alterations and in vivo mediator release in (Ting S et al), 417
 subjects, abnormal beta adrenergic responsiveness in; analysis of isoproterenol-induced cardiovascular and plasma cyclic adenosine monophosphate responses (Shelhamer JH et al), 52
Allergy, American Academy of: *see* American Academy of Allergy
 to copper and copper IUD, 22 (Abst.)
 food, delayed-onset, leukocyte inhibition factor in (Minor JD et al), 314
 to human seminal plasma, in vitro studies of (Kooistra JB et al), 148
 to laboratory animals; epidemiologic, clinical, and physiologic aspects, and trial of cromolyn in its management (Gross NJ), 158
 miscellaneous, 2, 8, 11, 18, 22, 28 (Absts.)
 ragweed, immunotherapy of, multi-institutional trial of polymerized whole ragweed for (Hendrix SG et al), 486
 societies, state, regional, and local, listing of presidents of, as of January, 1980, 262
Allogeneic bone marrow transplantation, increased serum IgE levels following (Geha RS et al), 78
Allpyral vaccines, single grass species, diagnosis and treatment of species-specific grass pollen sensitivity with, 9 (Abst.)
Alpha macroglobulin, IgE, and IgG, serum concentrations of, in childhood renal disease (Mansfield LE et al), 227
Alternaria allergens, studies on; isolation of major allergenic fraction (ALT-I) (Yunginger JW et al), 138
 -sensitive and perennial nonallergic asthmatics, HLA antigen frequencies and natural history in (Flaherty DK et al), 408
American Academy of Allergy; statement by Executive Committee, 431
Aminophylline solution, concentrated, rectally administered, bioavailability of theophylline following (Mason WD et al), 119
Analgesic-nonsteroidal anti-inflammatory agents, augmentation of allergic histamine release from human leukocytes by (Wojnar RJ et al), 37
Anaphylactic, anti-, activities of salbutamol and disodium cromoglycate, comparison of, in rat, rat mast cell, and human lung tissue, 19 (Abst.)
  effect of cortisol and its blood concentration, lack of correlation between, 30 (Abst.)
 reaction to penicillin (or penicillin-like substance) in soft drink (Wicher K, Reisman RE), 155
Anaphylactoid reactions, acute, volume replacement in, 13 (Abst.)

July, pp. 1-90; August, pp. 91-176; September, pp. 177-266; October, pp. 267-342; November, pp. 343-430; December, pp. 431-530.

Abstracts: July, pp. 1-4; August, pp. 5-8; September, pp. 9-14; October, pp. 15-20; November, pp. 21-26; December, pp. 27-30.

Anaphylaxis, exercise-induced (Sheffer AL, Austen KF), 106
Angioedema and urticaria, management of (Mathews KP), 347 (Postgraduate course presentation)
physical; experimental model of mast cell activation in humans (Soter NA, Wasserman SI), 358
Animals, laboratory, allergy to; epidemiologic, clinical, and physiologic aspects, and trial of cromolyn in its management (Gross NJ), 158
Announcements, 90, 176, 266, 342, 430, 516
Antabuse treatment of nickel dermatitis; chelation—new principle in treatment of nickel dermatitis, 19 (Abst.)
Antibody(ies), IgG, to pollen allergens, in children with rye-grass lung sensitivity, 23 (Abst.)
response, of smokers, nonsmokers, and "smoke sensitive" persons to tobacco leaf and smoke antigens, 22 (Abst.)
specific, in tear secretions of patients with vernal conjunctivitis (Ballow M, Mendelson L), 112
responses of burned patients immunized with polyvalent *Pseudomonas* vaccine, 11 (Abst.)
Antigen(s) E, urea-denatured, treatment of ragweed hay fever with (Norman PS et al), 336
HLA, frequencies of, and natural history in *Alternaria*-sensitive and perennial nonallergic asthmatics (Flaherty DK et al), 408
-induced bronchoconstriction, prevention of, by lodoxamide ethyl, new orally active antiallergic drug (Katcher ML, Reed CE), 223
bronchospasm, in vitro studies of, 16 (Abst.)
and mediator release, effects of theophylline, terbutaline, and prednisone on (Martin GL et al), 204
and methacholine inhalation in man, comparison of plasma histamine and cyclic nucleotides after (Atkins PC et al), 478
tobacco leaf and smoke, IgE antibody response of smokers, nonsmokers, and "smoke sensitive" persons to, 22 (Abst.)
p-tolyl isocyanate, radioallergosorbent testing of toluene diisocyanate–reactive individuals using (Butcher BT et al), 213
Antihistamine (methapyrilene hydrochloride), liver tumors induced in rats by oral administration of, 30 (Abst.)
Anxiety, asthma-induced, 6 (Abst.)
Ascorbic acid concentration in plasma and white blood cells of patients with bronchial asthma, 1 (Abst.)
Aspergillosis, allergic bronchopulmonary, late sequelae of (Greenberger PA et al), 327
and atopy in cystic fibrosis, 11 (Abst.)
Aspergillus and *Candida* species, role of, in allergic bronchopulmonary mycoses, 18 (Abst.)
Aspirin-sensitive asthma; tolerance to aspirin after positive oral aspirin challenges (Stevenson DD et al), 82
asthmatics, bronchial and intravenous provocation tests with indomethacin in, 5 (Abst.)
Assays for measurement of histamine; quality control study (Gleich GJ, Hull WM), 295
Asthma, acute, management of, in childhood; randomized evaluation of beta adrenergic agents, 22 (Abst.)
adult, ketotifen in, 10 (Abst.)
antigen-induced bronchospasm in, in vitro studies of, 16 (Abst.)
aspirin-sensitive; tolerance to aspirin after positive oral aspirin challenges (Stevenson DD et al), 82
bronchial, atopic, alteration in both insulin release and its hypoglycemic effects in (Szczeklik A et al), 424
exogenous, in adults, specific diagnosis of, 1 (Abst.)
patients with, plasma and white blood cell ascorbic acid concentration in, 1 (Abst.)
and sinusitis (Slavin RG et al), 250 (Allergy grand rounds)
caused by occupational exposure to furan-based binder system (Cockcroft DW et al), 458
chronic perennial, cromolyn sodium and theophylline in (Weinberger M), 428; Reply (Godfrey S), 428 (Correspondence)
Asthma—Cont'd
corticosteroid-dependent, severe, outpatients with, efficacy of troleandomycin in (Zeiger RS et al), 438
effect of sequential inhalations of metaproterenol aerosol in (Heimer D et al), 75
emergency treatment of; comparison of two treatment regimens, 6 (Abst.)
ethylenediamine-induced, 15 (Abst.)
and hay fever, 1, 5, 9, 15, 21 (Absts.)
induced by enkephalin, 7 (Abst.)
occupational; review of present clinical and immunologic status (Pepys J), 179 (Postgraduate course presentation)
panic-fear in, 6 (Abst.)
patients without history of, propanolol-related brochospasm in, 21 (Abst.)
school children with, absenteeism among, effects of progressive exercise program on, 29 (Abst.)
steroid-dependent, adult patients with, multicenter study of flunisolide aerosol in (Slavin RG et al), 379
severe, effect of troleandomycin on methylprednisolone elimination in (Szefler SF et al), 447
Asthmatic(s), aspirin-sensitive, bronchial and intravenous provocation tests with indomethacin in, 5 (Abst.)
children, institutions for, Rehabilitation Therapy Committee's ad hoc report on (Mascia A et al), 258 (Committee report)
intradermal skin tests with *Dermatophagoides pteronyssinus* in; correlation with specific IgE and bronchial provocation tests, 9 (Abst.)
exercise in, magnitude and site of airway response to, in relation to arterial histamine levels (McFadden ER Jr et al), 472
perennial nonallergic and *Alternaria*-sensitive, HLA antigen frequencies and natural history in (Flaherty DK et al), 408
steroid-dependent, prednisolone disposition in (Rose JQ et al), 366
subjects and normals, urinary cyclic AMP and cyclic GMP in, during exercise, 16 (Abst.)
Atopic dermatitis, specific hyposensitization in, 28 (Abst.)
eczema, characterization of granulocyte beta adrenergic receptors in (Ruoho AE et al), 46
and normal subjects, lymphocytes of, in vitro differences between, 17 (Abst.)
Atopy and aspergillosis in cystic fibrosis, 11 (Abst.)
Autoimmunity, immunoregulation in (Fauci AS), 5 (Postgraduate course presentation)

B

B lymphocytes, human, isotype-specific, that produce IgE in vitro when stimulated by pokeweed mitogen (Saxon A et al), 233
Bacteria and viruses, role of, in acute wheezy bronchitis in childhood; study of sputum, 3 (Abst.)
Basophil(s), circulating, IgE receptors on; relation between circulating and fixed IgE, 25 (Abst.)
counts and whole blood histamine, dose-response studies of suppression of, by prednisone (Saavedra-Delgado AMP et al), 464
Beekeepers, cancer mortality among, 28 (Abst.)
Bee venom, insoluble, polymerized (Patterson R et al), 495
and ragweed pollen radioallergosorbent tests, interference in (Zimmermann EM et al), 386
Beta adrenergic agents, randomized evaluation of; mangement of acute asthma in childhood, 22 (Abst.)
agonist, fenoterol, effect of, on nasal sensitivity to allergen (Schumacher MJ), 33
blocker (propanolol) related to bronchospasm in patients without history of asthma, 21 (Abst.)
receptors, granulocyte, characterization of, in atopic eczema (Ruoho AE et al), 46
responsiveness, abnormal, in allergic subjects; analysis of isoproterenol-induced cardiovascular and plasma cyclic adenosine monophosphate responses (Shelhamer JH et al), 52

Beta-2 adrenostimulant (fenoterol), inhibition of immediate allergic reaction in nose by (Borum P, Mygind N), 25
Biliary secretion of IgA, evidence for vesicular transport mechanism in hepatocytes for, 27 (Abst.)
Bioavailability and other factors that influence clinical responses to administered corticosteroids (Morris HG), 343 (Editorial)
of theophylline following rectally administered concentrated aminophylline solution (Mason WD et al), 119
Biopsy, nasal, and clinical response to treatment of perennial rhinitis (Spector SL et al), 129
Blood concentration and antianaphylactic effect of cortisol, lack of correlation between, 30 (Abst.)
Bone marrow transplantation, allogeneic, increased serum IgE levels following (Geha RS et al), 78
Breed-specific dog hypersensitivity in humans (Moore BS, Hyde JS), 198
Bronchial asthma, atopic, alteration in both insulin release and its hypoglycemic effects in (Szczeklik A et al), 424
exogenous, in adults, specific diagnosis of, 1 (Abst.)
patients with, plasma and white blood cell ascorbic acid concentration in, 1 (Abst.)
and sinusitis (Slavin RG et al), 250 (Allergy grand rounds)
and intravenous provocation tests with indomethacin in aspirin-sensitive asthmatics, 5 (Abst.)
provocation tests and specific IgE, correlation of intradermal skin tests with *Dermatophagoides pteronyssinus* in asthmatic children, 9 (Abst.)
reactivity to inhaled histamine, increased, in nonsmoking grain workers with normal lung function, 14 (Abst.)
Bronchitis, acute wheezy, in childhood, role of viruses and bacteria in; study of sputum, 3 (Abst.)
Bronchoconstriction, antigen-induced, prevention of, by lodoxamide ethyl, new orally active antiallergic drug (Katcher ML, Reed CE), 223
Bronchodilatation; noncholinergic, nonadrenergic mediation demonstrated in vivo in cat, 4 (Abst.)
Bronchopulmonary aspergillosis, allergic, late sequelae of (Greenberger PA et al), 327
mycoses, allergic, role of *Aspergillus* and *Candida* species in, 18 (Abst.)
Bronchospasm, antigen-induced, in vitro studies of, 16 (Abst.)
and mediator release, effects of theophylline, terbutaline, and prednisone on (Martin GL et al), 204
exercise-induced, oral and inhaled salbutamol in prevention of, 25 (Abst.)
propanolol-related, in patients without history of asthma, 21 (Abst.)
Burned patients, immunized with polyvalent *Pseudomonas* vaccine, antibody responses of, 11 (Abst.)

C

Caffeine, metabolism of theophylline to, in human fetal liver, 12 (Abst.)
Calcium flux, ionophore-induced, and inhibition of histamine release in rat mast cells by lidocaine and chlorpromazine, 13 (Abst.)
cAMP: *see* Cyclic adenosine monophosphate
Cancer mortality among beekeepers, 28 (Abst.)
Candida and *Aspergillus* species, role of, in allergic bronchopulmonary mycoses, 18 (Abst.)
Cell-mediated immunity to tetanus toxoid in adults, in vivo and in vitro (Fairshter RD et al), 452
Chelation—new principle in treatment of nickel dermatitis, 19 (Abst.)
Chemotaxis (Becker EL), 97 (Postgraduate course presentation)
Childhood, management of acute asthma in; randomized evaluation of beta adrenergic agents, 22 (Abst.)
renal disease, serum concentrations of IgE, IgG, and α_2-macroglobulin in (Mansfield LE et al), 227
role of viruses and bacteria in acute wheezy bronchitis in; study of sputum, 3 (Abst.)
Children, asthmatic, efficacy of 12-hour sustained-released preparation in maintaining therapeutic serum theophylline levels in, 24 (Abst.)
institutions for, Rehabilitation Therapy Committee's ad hoc report on (Mascia A et al), 258 (Committee report)
intradermal skin tests with *Dermatophagoides pteronyssinus* in; correlation with specific IgE and bronchial provocation tests, 9 (Abst.)
school absenteeism among, effects of progressive exercise program on, 29 (Abst.)
hyperactive, performance of, on laboratory learning test, impaired by food dyes, 29 (Abst.)
noncompliance in, during theophylline therapy (Ben-Zvi Z), 429 (Correspondence)
with rye-grass lung sensitivity, IgG antibodies to pollen allergens in, 23 (Abst.)
Chironomidae, widespread IgE-mediated hypersensitivity in Sudan to; diagnosis by radioallergosorbent test (Gad El Rab MO, Kay AB), 190
Chlorpromazine and lidocaine, inhibition of histamine release and ionophore-induced calcium flux in rat mast cells by, 13 (Abst.)
Chlorpropamide-alcohol–induced asthma, 7 (Abst.)
Cholinergic nervous system and immediate hypersensitivity; analysis of pupillary responses (Smith LJ et al), 374
non-, nonadrenergic mediation demonstrated in vivo in cat; bronchodilatation, 4 (Abst.)
Cimetidine, in vivo effect of, on canine pulmonary responsiveness to aerosol histamine (Snapper JR et al), 70
Circuits, immunoregulatory (Gershon RK), 18 (Postgraduate course presentation)
Circulating immune complexes, failure to detect, in allergic patients on injection therapy, 18 (Abst.)
Cladotanytarsus lewisi (diptera: Chironomidae), "green nimitti" midge, widespread IgE-mediated hypersensitivity in Sudan to; diagnosis by radioallergosorbent test (Gad El Rab MO, Kay AB), 190
Clinical, epidemiologic, and physiologic aspects of allergy to laboratory animals, and trial of cromolyn in its management (Gross NJ), 158
and immunologic status, review of; occupational asthma (Pepys J), 179 (Postgraduate course presentation)
studies of patients with large local reactions following insect stings (Green AW et al), 186
and nasal biopsy response to treatment of perennial rhinitis (Spector SL et al), 129
responses to administered corticosteroids, factors that influence (Morris HG), 343 (Editorial)
Cold urticaria associated with IgM serum factor (Inoue S et al), 299
Complement-dependent human granulocyte function, specific modulation of, by imidazole acetic acid (Herman JJ, Colten HR), 274
Complement receptors and histamine degradation (Frank MM), 267 (Editorial)
system, in vitro effects of radiographic contrast media on (Hasselbacher P, Hahn J), 217
Compliance, patient, and theophylline therapy (Ben-Zvi Z), 429 (Correspondence)
Conjunctivitis, vernal, specific IgE antibodies in tear secretions of patients with (Ballow M, Mendelson L), 112
Contact urticaria to parabens, 8 (Abst.)
Contraceptive device, intrauterine, copper, and copper allergy, 22 (Abst.)
Contrast media, radiographic, in vitro effects of, on complement system (Hasselbacher P, Hahn J), 217
Copper allergy and copper IUD, 22 (Abst.)
Correspondence, 89, 173, 428
Corticosteroid(s), administered, clinical responses to, factors that influence (Morris HG), 343 (Editorial)
-dependent asthma, severe, outpatients with, efficacy of troleandomycin in (Zeiger RS et al), 438
injectable depot, therapy with, in hay fever, 6 (Abst.)

Cortisol, antianaphylactic effect of, and blood concentration, lack of correlation between, 30 (Abst.)
Cromolyn sodium and theophylline in chronic perennial asthma (Weinberger M), 428; Reply (Godfrey S), 428 (Correspondence)
trial of, in management of allergy to laboratory animals (Gross NJ), 158
Cryoglobulins and immune complexes, role of, in vasculitis (Franklin EC), 269 (Postgraduate course presentation)
Cyclic adenosine monophosphate–active drugs, response of mast cells to (Kaliner MA), 1 (Editorial)
Cyclic adenosine monophosphate and cyclic GMP, urinary, in normal and asthmatic subjects during exercise, 16 (Abst.)
in plasma, and cardiovascular responses, isoproterenol-induced, analysis of; abnormal beta adrenergic responsiveness in allergic subjects (Shelhamer JH et al), 52
guanosine monophosphate and cyclic AMP, urinary, in normal and asthmatic subjects during exercise, 16 (Abst.)
nucleotides and plasma histamine, comparison of, after antigen and methacholine inhalation in man (Atkins PC et al), 478
Cystic fibrosis, aspergillosis and atopy in, 11 (Abst.)

D

Degradation of histamine and complement receptors (Frank MM), 267 (Editorial)
Dental composite material, delayed extraoral hypersensitivity to, 2 (Abst.)
Depot corticosteroid, injectable, therapy with, in hay fever, 6 (Abst.)
Dermatitis, atopic, specific hyposensitization in, 28 (Abst.)
nickel, Antabuse treatment of; chelation—new principle in treatment of nickel dermatitis, 19 (Abst.)
shoe, in industrial workers, polyvinyl chloride work boots in management of, 19 (Abst.)
Dermatophagoides pteronyssinus, intradermal skin tests with, in asthmatic children; correlation with specific IgE and bronchial provocation tests, 9 (Abst.)
Diagnosis, specific, of exogenous bronchial asthma in adults, 1 (Abst.)
Diphtheria-tetanus skin testing; its clinical value for delayed hypersensitivity, 10 (Abst.)
Disodium cromoglycate action on mast cells, enigma of, 4 (Abst.)
and salbutamol, comparison of antianaphylactic activities of, in rat, rat mast cell, and human lung tissue, 19 (Abst.)
Dog breed–specific hypersensitivity in humans (Moore BS, Hyde JS), 198
Dose-response studies of suppression of whole blood histamine and basophil counts by prednisone (Saavedra-Delgado AMP et al), 464
Dyes in food impair performance of hyperactive children on laboratory learning test, 29 (Abst.)

E

Ear, middle, effusion, use of short course of prednisone for treatment of, 23 (Abst.)
Eczema, atopic, characterization of granulocyte beta adrenergic receptors in (Ruoho AE et al), 46
Emergency treatment of asthma; comparison of two treatment regimens, 6 (Abst.)
Enkephalin-induced asthma, 7 (Abst.)
Epidemiologic, clinical, and physiologic aspects of allergy to laboratory animals, and trial of cromolyn in its management (Gross NJ), 158
Epinephrine vs epinephrine plus aminophylline in emergency treatment of asthma, 6 (Abst.)
Epoxy-based dental materials, delayed hypersensitivity to, 2 (Abst.)
Ethylenediamine-induced asthma, 15 (Abst.)
Etiology and symptomatic treatment of urticaria and angioedema (Mathews KP), 347 (Postgraduate course presentation)
Exercise-induced anaphylaxis (Sheffer AL, Austen KF), 106
bronchospasm, oral and inhaled salbutamol in prevention of, 25 (Abst.)
magnitude and site of airway response to, in asthmatics in relation to arterial histamine levels (McFadden ER Jr et al), 472
program, progressive, effects of, on absenteeism among school children with asthma, 29 (Abst.)
urinary cyclic AMP and cyclic GMP in normal and asthmatic subjects during, 16 (Abst.)
Extract and pollen, ragweed, deposition of, on nasal mucosa of patients with allergic rhinitis; effect on nasal airflow resistance and nasal mucus velocity (Guercio JP et al), 61
pollen, short ragweed, heat stability of, and importance of individual allergens in skin reactivity (Baer H et al), 281

F

Fenoterol, beta adrenergic agonist, effect of, on nasal sensitivity to allergen (Schumacher MJ), 33
inhibition of immediate allergic reaction in nose by beta-2 adrenostimulant (Borum P, Mygind N), 25
Fetal liver, human, metabolism of theophylline to caffeine in, 12 (Abst.)
Flunisolide aerosol in adult patients with steroid-dependent asthma, multicenter study of (Slavin RG et al), 379
Food allergy, delayed-onset, leukocyte inhibition factor in (Minor JD et al), 314
dyes impair performance of hyperactive children on laboratory learning test, 29 (Abst.)
Fraction, allergenic, major, isolation of; studies on *Alternaria* allergens (Yunginger JW et al), 138
Furan-based binder system, occupational asthma caused by exposure to (Cockcroft DW et al), 458
Future, look to, and reflections on 1970s (Buckley RH), 432 (Presidential address)

G

Grain workers, nonsmoking, with normal lung fuction, increased bronchial reactivity to inhaled histamine in, 14 (Abst.)
Granulocyte beta adrenergic receptors, characterization of, in atopic eczema (Ruoho AE et al), 46
function, human, complement-dependent, specific modulation of, by imidazole acetic acid (Herman JJ, Colten HR), 274
Grass pollen sensitivity, species-specific; diagnosis and treatment with single grass species Allpyral vaccines, 9 (Abst.)

H

Hay fever and asthma, 1, 5, 9, 15, 21 (Absts.)
injectable depot corticosteroid therapy in, 6 (Abst.)
ragweed pollen, Rinkel method and current standard method of immunotherapy for, comparative study of effectiveness of (Van Metre TE Jr et al), 500
treatment of, with urea-denatured antigen E (Norman PS et al), 336
Heat stability of short ragweed pollen extract and importance of individual allergens in skin reactivity (Baer H et al), 281
Hepatocytes, evidence for vesicular transport mechanism in, for biliary secretion of IgA, 27 (Abst.)
Histamine, aerosol, in vivo effect of cimetidine on canine pulmonary responsiveness to (Snapper JR et al), 70
degradation and complement receptors (Frank MM), 267 (Editorial)
inhaled, increased bronchial reactivity to, in nonsmoking grain workers with normal lung function, 14 (Abst.)
levels, arterial, magnitude and site of airway response to exercise in asthmatics in relation to (McFadden ER Jr et al), 472

Histamine—Cont'd
measurement; quality control study (Gleich GJ, Hull WM), 295
plasma, and cyclic nucleotides, comparison of, after antigen and methacholine inhalation in man (Atkins PC et al), 478
release, allergic, augmentation of, from human leukocytes by nonsteroidal anti-inflammatory–analgesic agents (Wojnar RJ et al), 37
inhibition of, and ionophore-induced calcium flux in rat mast cells by lidocaine and chlorpromazine, 13 (Abst.)
from mast cells, effect of disodium cromoglycate on, 4 (Abst.)
whole blood, and basophil counts, dose-response studies of suppression of, by prednisone (Saavedra-Delgado AMP et al), 464
HLA antigen frequencies and natural history in *Alternaria*-sensitive and perennial nonallergic asthmatics (Flaherty DK et al), 408
Hybrid cell line, IgE class specific suppressor T cells and establishment of their, 10 (Abst.)
Hydralazine-pyrimidine interactions may explain hydralazine-induced lupus erythematosus, 8 (Abst.)
Hyperactive children, performance of, on laboratory learning test, impaired by food dyes, 29 (Abst.)
Hypersensitivity, delayed, clinical value of diphtheria-tetanus skin testing for, 10 (Abst.)
extraoral, to dental composite material, 2 (Abst.)
dog breed–specific, in humans (Moore BS, Hyde JS), 198
IgE-mediated, widespread in Sudan, to "green nimitti" midge, *Cladotanytarsus lewisi* (diptera: Chironomidae); diagnosis by radioallergosorbent test (Gad El Rab MO, Kay AB), 190
immediate, and cholinergic nervous system; analysis of pupillary responses (Smith LJ et al), 374
to purified allergens, and lymphocyte responses, correlation between (Black PL, Marsh DG), 394
skin-test reaction, effect of theophylline, terbutaline, and their combination on (Abramowitz PW et al), 123
to phenytoin (Josephs SH et al), 166 (Allergy grand rounds)
syndromes, trimellitic anhydride–induced, in humans, model for therapeutic approach to; induction of immunologic tolerance to trimellitate haptenic group in mice (Liu F-T et al), 322
Hypoglycemic effects of insulin release, and insulin release, alteration in, in atopic bronchial asthma (Szczeklik A et al), 424
Hyposensitization, specific, in atopic dermatitis, 28 (Abst.)
Hysterosalpingography, systemic reaction to radiocontrast media during (Elias JA), 242

I

Imidazole acetic acid, specific modulation of complement-dependent human granulocyte function by (Herman JJ, Colten HR), 274
Immune competence of newborn lymphocytes, 3 (Abst.)
complexes, circulating, failure to detect, in allergic patients on injection therapy, 18 (Abst.)
and cryoglobulins, role of, in vasculitis (Franklin EC), 269 (Postgraduate course presentation)
functions, impaired, restoration of, in aging animals; effect of mercaptoethanol in enhancing reduced primary antibody responsiveness in vivo, 7 (Abst.)
Immunity, cell-mediated, to tetanus toxoid in adults, in vivo and in vitro (Fairshter RD et al), 452
Immunogenicity, venom, of various species of yellow jackets (genus *Vespula*), comparison of (Wicher K et al), 244
Immunoglobulin A, biliary secretion of, evidence for vesicular transport mechanism in hepatocytes for, 27 (Abst.)
E, allergen-specific, in serum, immunoperoxidase method for demonstration of, 24 (Abst.)
antibody(ies) response of smokers, nonsmokers, and "smoke sensitive" persons to tobacco leaf and smoke antigens, 22 (Abst.)
Immunoglobulin E antibody(ies)—Cont'd
specific, in tear secretions of patients with vernal conjunctivitis (Ballow M, Mendelson L), 112
circulating and fixed, relation between, 25 (Abst.)
class specific suppressor T cells and establishment of their hybrid cell line, 10 (Abst.)
and G and α_2-macroglobulin, serum concentrations of, in childhood renal disease (Mansfield LE et al), 227
levels, serum, age-related, in healthy subjects and in patients with allergic disease (Wittig HJ et al), 305
increased, following allogeneic bone marrow transplantation (Geha RS et al), 78
localization of, in adenoids and tonsils; immunoperoxidase study, 26 (Abst.)
–mediated hypersensitivity, widespread, in Sudan to "green nimitti" midge, *Cladotanytarsus lewisi* (diptera: Chironomidae); diagnosis by radioallergosorbent test (Gad El Rab MO, Kay AB), 190
nonspecific, parasite-induced, does not protect against allergic reactions, 27 (Abst.)
production of, in vitro, by isotype-specific human B lymphocytes, when stimulated by pokeweed mitogen (Saxon A et al), 233
serum, elevated, in T cell–deficient infants fed cow's milk (Juto P), 402
specific, and bronchial provocation tests, correlation of intradermal skin tests with *Dermatophagoides pteronyssinus* in asthmatic children with, 9 (Abst.)
G antibodies to pollen allergens in children with rye-grass lung sensitivity, 23 (Abst.)
M serum factor, cold urticaria associated with (Inoue S et al), 299
Immunologic and clinical status of occupational asthma, review of; (Pepys J), 179 (Postgraduate course presentation)
studies of patients with large local reactions following insect stings (Green AW et al), 186
mechanisms and cancer mortality among beekeepers, 28 (Abst.)
tolerance to trimellitate haptenic group, induction of, in mice; model for therapeutic approach to trimellitic anhydride–induced hypersensitivity syndromes in humans (Liu F-T et al), 322
Immunology, 2, 7, 10, 17, 27 (Absts.)
Immunoperoxidase method for demonstration of allergen-specific IgE in serum, 24 (Abst.)
study; localization of IgE in adenoids and tonsils, 26 (Abst).
Immunoregulation in autoimmunity (Fauci AS), 5 (Postgraduate course presentation)
circa 1980; comments on state of art (Gershon RK), 18 (Postgraduate course presentation)
of parasite infections (Capron A et al), 91 (Postgraduate course presentation)
Immunosuppression, postoperative, reversal of, in man, by vitamin A, 2 (Abst.)
Immunotherapy (Bookman R); Reply (Norman PS), 89 (Correspondence)
assessment of, by radioallergosorbent test (Zeiss CR et al), 173; (Ali M), 173; Reply (Adkinson NF Jr), 174 (Correspondence)
of ragweed allergy, polymerized whole ragweed for, multi-institutional trial of (Hendrix SG et al), 486
Rinkel method and current standard method of, for ragweed pollen hay fever, comparative study of effectiveness of (Van Metre TE Jr et al), 500
Indomethacin, bronchial and intravenous provocation tests with, in aspirin-sensitive asthmatics, 5 (Abst.)
Industrial workers, shoe dermatitis in, polyvinyl chloride work boots in management of, 19 (Abst.)
Infants, newborn, effect of atmospheric pollen on, 24 (Abst.)
T cell–deficient, fed cow's milk, elevated serum IgE in (Juto P), 402
Infections, parasite, immunoregulation of (Capron A et al), 91 (Postgraduate course presentation)

Injection therapy, allergic patients on, failure to detect circulating immune complexes in, 18 (Abst.)
Insect stings, patients with large local reactions following, clinical and immunologic studies of (Green AW et al), 186
Institutions for asthmatic children, Rehabilitation Therapy Committee's ad hoc report on (Mascia A et al), 258 (Committee report)
Insulin release and its hypoglycemic effects, alteration in, in atopic bronchial asthma (Szczeklik A et al), 424
Intrauterine device, copper, and copper allergy, 22 (Abst.)
Iodides, abandonment of use of, in management of pulmonary diseases (Hendeles L, Weinberger M), 177 (Editorial)
Ionophore-induced calcium flux and inhibition of histamine release in rat mast cells by lidocaine and chlorpromazine, 13 (Abst.)
Isoproterenol-induced cardiovascular and plasma cyclic adenosine monophosphate responses, analysis of; abnormal beta adrenergic responsiveness in allergic subjects (Shelhamer JH et al), 52
Isotype-specific human B lymphocytes that produce IgE in vitro when stimulated by pokeweed mitogen (Saxon A et al), 233
IUD, copper, and copper allergy, 22 (Abst.)

K

Ketotifen in adult asthma, 10 (Abst.)

L

Leukocytes, chemotactic responsiveness of (Becker EL), 97 (Postgraduate course presentation)
  human, augmentation of allergic histamine release from, by nonsteroidal anti-inflammatory–analgesic agents (Wojnar RJ et al), 37
  inhibition factor in delayed-onset food allergy (Minor JD et al), 314
Lidocaine and chlorpromazine, inhibition of histamine release and ionophore-induced calcium flux in rat mast cells by, 13 (Abst.)
Liver, human fetal, metabolism of theophylline to caffeine in, 12 (Abst.)
  tumors induced in rats by oral administration of antihistamine, methapyrilene hydrochloride, 30 (Abst.)
Lodoxamide ethyl, new orally active antiallergic drug, prevention of antigen-induced bronchoconstriction by (Katcher ML, Reed CE), 223
  tromethamine, protective effect of, on allergen inhalation challenge (Watt GD et al), 286
Lung tissue, human, rat mast cell, and rat, comparison of antianaphylactic activities of salbutamol and disodium cromoglycate in, 19 (Abst.)
Lupus erythematosus, hydralazine-induced, hydralazine-pyrimidine interactions as explanation for, 8 (Abst.)
Lymphocyte(s), B, human, isotype-specific, that produce IgE in vitro when stimulated by pokeweed mitogen (Saxon A et al), 233
  of newborn infants, immune competence of, 3 (Abst.)
  of normal subjects and atopics, in vitro differences between, 17 (Abst.)
  responses and immediate hypersensitivity to purified allergens, correlation between (Black PL, Marsh DG), 394

M

α_2-Macroglobulin, IgE, and IgG, serum concentrations of, in childhood renal disease (Mansfield LE et al), 227
Mast cell(s) (Kaliner MA), 1 (Editorial)
  activation in humans, experimental model of; physical urticaria/angioedema (Soter NA, Wasserman SI), 358
  alterations and in vivo mediator release in human allergic skin reactions, patterns of (Ting S et al), 417
  enigma of disodium cromoglycate action on, 4 (Abst.)
  –mediated allergic disease and lodoxamide tromethamine (Watt GD et al), 286
Mast cell—Cont'd
  rat, inhibition of histamine release and ionophore-induced calcium flux in, by lidocaine and chlorpromazine, 13 (Abst.)
  of rat, human lung tissue, and rat, comparison of antianaphylatic activities of salbutamol and disodium cromoglycate in, 19 (Abst.)
Mediator release and bronchospasm, antigen-induced, effects of theophylline, terbutaline, and prednisone on (Martin GL et al), 204
  in vivo and mast cell alteration in human allergic skin reactions, patterns of (Ting S et al), 417
Mercaptoethanol, effect of, in enhancing reduced primary antibody responsiveness in vivo; restoration of impaired immune functions in aging animals, 7 (Abst.)
Metabolism of theophylline to caffeine in human fetal liver, 12 (Abst.)
Metal allergy and copper IUD, 22 (Abst.)
Metaproterenol aerosol, effect of sequential inhalations of, in asthma (Heimer D et al), 75
Methacholine and antigen inhalation in man, comparison of plasma histamine and cyclic nucleotides after (Atkins PC et al), 478
Methapyrilene hydrochloride, liver tumors induced in rats by oral administration of, 30 (Abst.)
Methylprednisolone elimination, effect of troleandomycin on (Szefler SJ et al), 447
Midge, "green nimitti," *Cladotanytarsus lewisi* (diptera: Chironomidae), widespread IgE-mediated hypersensitivity in Sudan to; diagnosis by radioallergosorbent test (Gad El Rab MO, Kay AB), 190
Milk, cow's, fed to infants with elevated serum IgE in T cell deficiency (Juto P), 402
Mucosa, nasal, of patients with allergic rhintitis, deposition of ragweed pollen and extract on; effect on nasal airflow resistance and nasal mucus velocity (Guercio JP et al), 61
Multicenter study of flunisolide aerosol in adult patients with steroid-dependent asthma (Slavin RG et al), 379
Multi-institutional trial of polymerized whole ragweed for immunotherapy of ragweed allergy (Hendrix SG et al), 486
Mycoses, allergic-bronchopulmonary, role of *Aspergillus* and *Candida* species in, 18 (Abst.)

N

Nasal biopsy and clinical response to treatment of perennial rhinitis (Spector SL et al), 129
  mucosa of patients with allergic rhinitis, deposition of ragweed pollen and extract on; effect on nasal airflow resistance and nasal mucus velocity (Guercio JP et al), 61
  resistance and symptomatology, postural variations in, in allergic rhinitis, 26 (Abst.)
  sensitivity to allergen, effect of beta adrenergic agonist, fenoterol, on (Schumacher MJ), 33
Nervous system, cholinergic, and immediate hypersensitivity; analysis of pupillary responses (Smith LJ et al), 374
Neutrophils, chemotactic responsiveness of (Becker EL), 97 (Postgraduate course presentation)
Newborn infants, effect of atmospheric pollen on, 24 (Abst.)
  lymphocytes in, immune competence of, 3 (Abst.)
Nickel dermatitis, Antabuse treatment of; chelation—new principle in treatment of nickel dermatitis, 19 (Abst.)
Nonsteroidal anti-inflammatory–analgesic agents, augmentation of allergic histamine release from human leukocytes by (Wojnar RJ et al), 37
Nose, inhibition of immediate allergic reaction in, by beta-2 adrenostimulant fenoterol (Borum P, Mygind N), 25
Nucleotides, cyclic, and plasma histamine, comparison of, after antigen and methacholine inhalation in man (Atkins PC et al), 478

O

Occupational asthma caused by exposure to furan-based binder system (Cockcroft DW et al), 458
ethylenediamine-induced, 15 (Abst.)
review of present clinical and immunologic status (Pepys J), 179 (Postgraduate course presentation)
Otitis media with effusion, short course of prednisone for treatment of, 23 (Abst.)

P

Panic-fear in asthma, 6 (Abst.)
Parabens, contact urticaria to, 8 (Abst.)
Parasite-induced nonspecific IgE does not protect against allergic reactions, 27 (Abst.)
Parasite infections, immunoregulation of (Capron A et al), 91 (Postgraduate course presentation)
Pathology, pharmacology, and physiology, 4, 8, 12, 19, 24, 30 (Absts.)
Pediatrics, 3, 23, 29 (Absts.)
Penicillin, anaphylactic reaction to (Wicher K, Reisman RE), 155
Pharmacologic target of asthma and allergic disease (Kaliner MA), 1 (Editorial)
Pharmacology, physiology, and pathology, 4, 8, 12, 19, 24, 30 (Absts.)
Phenytoin hypersensitivity (Josephs SH et al), 166 (Allergy grand rounds)
Physiologic, clinical, and epidemiologic aspects of allergy to laboratory animals, and trial of cromolyn in its management (Gross NJ), 158
Physiology, pathology, and pharmacology, 4, 8, 12, 19, 24, 30 (Absts.)
Plasma cyclic adenosine monophosphate and cardiovascular responses, isoproterenol-induced, analysis of; abnormal beta adrenergic responsiveness in allergic subjects (Shelhamer JH et al), 52
histamine and cyclic nucleotides, comparison of, after antigen and methacholine inhalation in man (Atkins PC et al), 478
human seminal, allergy to, in vitro studies of (Kooistra JB et al), 148
and white blood cell ascorbic acid concentration in patients with bronchial asthma, 1 (Abst.)
Pokeweed mitogen, isotype-specific human B lymphocytes that produce IgE in vitro when stimulated by (Saxon A et al), 233
Pollen allergens, IgG antibodies to, in children with rye-grass lung sensitivity, 23 (Abst.)
atmospheric, effect of, on newborn, 24 (Abst.)
and extract, ragweed, deposition of, on nasal mucosa of patients with allergic rhinitis; effect on nasal airflow resistance and nasal mucus velocity (Guercio JP et al), 61
extract, short ragweed, heat stability of, and importance of individual allergens in skin reactivity (Baer H et al), 281
grass, sensitivity, species-specific; diagnosis and treatment with single grass species Allpyral vaccines, 9 (Abst.)
ragweed, hay fever, Rinkel method and current standard method of immunotherapy for, comparative study of effectiveness of (Van Metre TE Jr et al), 500
and honeybee venom radioallergosorbent tests, interference in (Zimmermann EM et al), 386
Polymerized insoluble bee venom (Patterson R et al), 495
whole ragweed for immunotherapy of ragweed allergy, multi-institutional trial of (Hendrix SG et al), 486
Polyvinyl chloride work boots in management of shoe dermatitis in industrial workers, 19 (Abst.)
Position statements by Executive Committee of American Academy of Allergy, 431
Postoperative immunosuppression, reversal of, in man, by vitamin A, 2 (Abst.)
Postural variations in nasal resistance and symptomatology in allergic rhinitis, 26 (Abst.)
Prednisolone disposition in steroid-dependent asthmatics (Rose JQ et al), 366
Prednisone, suppression of whole blood histamine and basophil counts by, dose-response studies of (Saavedra-Delgado AMP et al), 464
theophylline, and terbutaline effects on antigen-induced bronchospasm and mediator release (Martin GL et al), 204
use of short course of, for treating middle ear effusion; double-blind crossover study, 23 (Abst.)
Presidential address, 432
Presidents of state, regional, and local allergy societies as of January, 1980, 262
Propanolol-related bronchospasm in patients without history of asthma, 21 (Abst.)
Provocation tests, bronchial and intravenous, with indomethacin in aspirin-sensitive asthmatics, 5 (Abst.)
Pseudomonas vaccine, polyvalent, antibody responses of burned patients immunized with, 11 (Abst.)
Pulmonary diseases, abandonment of use of iodides in management of (Hendeles L, Weinberger M), 177 (Editorial)
responsiveness, canine, to aerosol histamine, in vivo effect of cimetidine on (Snapper JR et al), 70
Pupillary responses, analysis of; cholinergic nervous system and immediate hypersensitivity (Smith LJ et al), 374
Pyrimidine-hydralazine interactions may explain hydralazine-induced lupus erythematosus, 8 (Abst.)

Q

Quality control study of measurement of histamine (Gleich GJ, Hull WM), 295

R

Radioallergosorbent test(s) (Zeiss CR et al), 173; (Ali M), 173; Reply (Adkinson NF Jr), 174 (Correspondence)
diagnosis by; widespread IgE-mediated hypersensitivity in Sudan to "green nimitti" midge, *Cladotanytarsus lewisi* (diptera: Chironomidae) (Gad El Rab MO, Kay AB), 190
ragweed pollen and honeybee venom, interference in (Zimmermann EM et al), 386
of toluene diisocyanate–reactive individuals using *p*-tolyl isocyanate antigen (Butcher BT et al), 213
Radiocontrast media, systemic reaction to, during hysterosalpingography (Elias JA), 242
Radiographic contrast media, in vitro effects of, on complement system (Hasselbacher P, Hahn J), 217
Ragweed pollen count and immunotherapy (Bookman R); Reply (Norman PS), 89 (Correspondence)
and extract, deposition of, on nasal mucosa of patients with allergic rhinitis; effect on nasal airflow resistance and nasal mucus velocity (Guercio JP et al), 61
hay fever, Rinkel method and current standard method of immunotherapy for, comparative study of effectiveness of (Van Metre TE Jr et al), 500
treatment of, with urea-denatured antigen E (Normal PS et al), 336
and honeybee venom radioallergosorbent tests, interference in (Zimmermann EM et al), 386
short, pollen extract, heat stability of, and importance of individual allergens in skin reactivity (Baer H et al), 281
whole, polymerized, for immunotherapy of ragweed allergy, multi-institutional trial of (Hendrix SG et al), 486
Reflections on 1970s and look to future (Buckley RH), 432 (Presidential address)
Rehabilitation Therapy Committee's ad hoc report on institutions for asthmatic children (Mascia A et al), 258 (Committee report)
Renal disease, childhood, serum concentrations of IgE, IgG, and α_2-macroglobulin in (Mansfield LE et al), 227
Reviewer acknowledgment, 514

Rhinitis, allergic, patients with, deposition of ragweed pollen and extract on nasal mucosa of; effect on nasal airflow resistance and nasal mucus velocity (Guercio JP et al), 61
postural variations in nasal resistance and symptomatology in, 26 (Abst.)
perennial, clinical and nasal biopsy response to treatment of (Spector SL et al), 129
Rhinosinusitis-asthma-aspirin syndrome (Stevenson DD et al), 82
Rinkel method and current standard method of immunotherapy for ragweed pollen hay fever, comparative study of effectiveness of (Van Metre TE Jr et al), 500
Rye-grass lung sensitivity, children with, IgG antibodies to pollen allergens in, 23 (Abst.)

S

Salbutamol and disodium cromoglycate, comparison of antianaphylactic activities of, in rat, rat mast cell, and human lung tissue, 19 (Abst.)
oral and inhaled, in prevention of exercise-induced bronchospasm, 25 (Abst.)
Seminal plasma allergy, human, in vitro studies of (Kooistra JB et al), 148
Serum, allergen-specific IgE in, immunoperoxidase method for demonstration of, 24 (Abst.)
concentration(s) and antianaphylactic effect of cortisol, lack of correlation between, 30 (Abst.)
of IgE, IgG, and α_2-macroglobulin in childhood renal disease (Mansfield LE et al), 227
factor, IgM, cold urticaria associated with (Inoue S et al), 299
IgE, elevated, in T cell–deficient infants fed cow's milk (Juto P), 402
levels, age-related, in healthy subjects and in patients with allergic disease (Wittig HJ et al), 305
increased, following allogeneic bone marrow transplantation (Geha RS et al), 78
theophylline levels, efficacy of 12-hour sustained-release preparation in maintaining, in asthmatic children, 24 (Abst.)
Shoe dermatitis in industrial workers, polyvinyl chloride work boots in management of, 19 (Abst.)
Sinusitis and bronchial asthma (Slavin RG et al), 250 (Allergy grand rounds)
Skin reactions, allergic, human, patterns of mast cell alterations and in vivo mediator release in (Ting S et al), 417
reactivity, importance of individual allergens in, and heat stability of short ragweed pollen extract (Baer H et al), 281
test(s), diphtheria-tetanus, clinical value of, for delayed hypersensitivity, 10 (Abst.)
immediate hypersensitivity, reaction, effect of theophylline, terbutaline, and their combination on (Abramowitz PW et al), 123
intradermal, with *Dermatophagoides pteronyssinus* in asthmatic children; correlation with specific IgE and bronchial provocation tests, 9 (Abst.)
and modified radioallergosorbent tests (Ali M), 173; Reply (Adkinson NF Jr), 174 (Correspondence)
Smokers, nonsmokers, and "smoke sensitive" persons, IgE antibody response of, to tobacco leaf and smoke antigens, 22 (Abst.)
Societies, allergy, state, regional, and local, listing of presidents of, as of January, 1980, 262
Soft drink, penicillin (or penicillin-like substance) in, anaphylactic reaction to (Wicher K, Reisman RE), 155
Species-specific grass pollen sensitivity; diagnosis and treatment with single grass species Allpyral vaccines, 9 (Abst.)
Sputum, study of; role of viruses and bacteria in acute wheezy bronchitis in childhood, 3 (Abst.)
Steroid-dependent asthma, adult patients with, multicenter study of flunisolide aerosol in (Slavin RG et al), 379
prednisolone disposition in (Rose JQ et al), 366
Steroid-dependent asthma—Cont'd
severe, effect of troleandomycin on methylprednisolone elimination in (Szefler SJ et al), 447
Stings, insect, patients with large local reactions following, clinical and immunologic studies of (Green AW et al), 186
Sudan, widespread IgE-mediated hypersensitivity in, to "green nimitti" midge, *Cladotanytarsus lewisi* (diptera: Chironomidae); diagnosis by radioallergosorbent test (Gad Ed Rab MO, Kay AB), 190
Sustained-release preparation, 12-hour, efficacy of, in maintaining therapeutic serum theophylline levels in asthmatic children, 24 (Abst.)
Sympathomimetic drugs and colloidal fluid-volume expanders in acute anaphylactoid reactions, 13 (Abst.)
Systemic lupus erythematosus; immunoregulation in autoimmunity (Fauci AS), 5 (Postgraduate course presentation)
reaction to radiocontrast media during hysterosalpingography (Elias JA), 242

T

T cell(s) defects in atopy, 17 (Abst.)
–deficient infants fed cow's milk, elevated serum IgE in (Juto P), 402
suppressor, IgE class specific, and establishment of their hybrid cell line, 10 (Abst.)
Tear secretions of patients with vernal conjunctivitis, specific IgE antibodies in (Ballow M, Mendelson L), 112
Terbutaline, theophylline, and their combination, effect of, on immediate hypersensitivity skin-test reaction (Abramowitz PW et al), 123
and prednisone effects on antigen-induced bronchospasm and mediator release (Martin GL et al), 204
Tetanus-diphtheria skin testing; its clinical value for delayed hypersensitivity, 10 (Abst.)
Tetanus toxoid, in vivo and in vitro cell-mediated immunity to, in adults (Fairshter RD et al), 452
Tetraethylthiuram disulfide treatment of nickel dermatitis; chelation—new principle in treatment of nickel dermatitis, 19 (Abst.)
Theophylline, bioavailability of, following rectally administered concentrated aminophylline solution (Mason WD et al), 119
and cromolyn sodium in chronic perennial asthma (Weinberger M); Reply (Godfrey S), 428 (Correspondence)
levels in serum, efficacy of 12-hour sustained-release preparation in maintaining, in asthmatic children, 24 (Abst.)
metabolism of, to caffeine, in human fetal liver, 12 (Abst.)
terbutaline, and their combination, effect of, on immediate hypersensitivity skin-test reaction (Abramowitz PW et al), 123
and prednisone effects on antigen-induced bronchospasm and mediator release (Martin GL et al), 204
therapy and patient compliance (Ben-Zvi Z), 429 (Correspondence)
Tobacco leaf and smoke antigens, IgE antibody response of smokers, nonsmokers, and "smoke sensitive" persons to, 22 (Abst.)
Toluene diisocyanate–reactive individuals, radioallergosorbent testing of, using *p*-tolyl isocyanate antigen (Butcher BT et al), 213
p-Tolyl isocyanate antigen, radioallergosorbent testing of toluene diisocyanate–reactive individuals using (Butcher BT et al), 213
Tonsils and adenoids, localization of IgE in; immunoperoxidase study, 26 (Abst.)
Toxicity of iodides in management of pulmonary diseases (Hendeles L, Weinberger M), 177 (Editorial)
Transplantation, allogeneic bone marrow, increased serum IgE levels following (Geha RS et al), 78
Transport mechanism, vesicular, for biliary secretion of IgA, evidence for, in hepatocytes, 27 (Abst.)

Trimellitate haptenic group, induction of immunologic tolerance to, in mice; model for therapeutic approach to trimellitic anhydride–induced hypersensitivity syndromes in humans (Liu F-T et al), 322
Troleandomycin, effect of, on methylprednisolone elimination (Szefler SJ et al), 447
efficacy of, in outpatients with severe, corticosteroid-dependent asthma (Zeiger RS et al), 438
Tumors, liver, induced in rats by oral administration of antihistamine, methapyrilene hydrochloride, 30 (Abst.)

U

Urea-denatured antigen E, treatment of ragweed hay fever with (Norman PS et al), 336
Urinary cyclic AMP and cyclic GMP in normal and asthmatic subjects during exercise, 16 (Abst.)
Urticaria and angioedema, management of (Mathews KP), 347 (Postgraduate course presentation)
physical; experimental model of mast cell activation in humans (Soter NA, Wasserman SI), 358
cold, associated with IgM serum factor (Inoue S et al), 299
contact, to parabens, 8 (Abst.)

V

Vasculitis, role of cryoglobulins and immune complexes in (Franklin EC), 269 (Postgraduate course presentation)
Venom, bee, insoluble, polymerized (Patterson R et al), 495
honeybee, and ragweed pollen radioallergosorbent tests, interference in (Zimmermann EM et al), 386
immunogenicity of various species of yellow jackets (genus *Vespula*), comparison of (Wicher K et al), 244
Vernal conjunctivitis, specific IgE antibodies in tear secretions of patients with (Ballow M, Mendelson L), 112
Vespula, various species of, comparison of venom immunogenicity of (Wicher K et al), 244
Viruses and bacteria, role of, in acute wheezy bronchitis in childhood; study of sputum, 3 (Abst.)
Vitamin A, reversal of postoperative immunosuppression in man by, 2 (Abst.)
Volume replacement in acute anaphylactoid reactions, 13 (Abst.)

W

White blood cell and plasma ascorbic acid concentration in patients with bronchial asthma, 1 (Abst.)

Y

Yellow jackets (genus *Vespula*), various species of, comparison of venom immunogenicity of (Wicher K et al), 244
